Dear Sirs:

As spokesperson for a group of concerned parents and citizens, we are disturbed by the recommendation of Mr. Gordon Fairweather, Chief Commissioner, Canadian Human Rights Commission, to secure homosexual rights or to entrench in the Constitution special rights for sexual perverts under the nebulous and incorrect phrase "sexual orientation". We wish to point out that the correct term is "sexual orientation disturbance", as coined by Dr. Robert L. Spitzer of the American Psychiatric Association in 1974.

Since the two major objectives of militant homosexuals are a) to proselytize for homosexuality in the schools, in order to recruit individuals to their perverted lifestyle, since they are unable to procreate, having relinquished their birthright to do so, and b) to promote pederasty in society, we strongly object to Mr. Fairweather's recommendation. Our objection is based on the fact that to grant sexual perverts special rights, thus enabling them to pursue their two major objectives freely, is to usurp the right of our children to growth to full humanness via heterosexuality, the biological given or norm, and to usurp the right of parents who wish the freedom for their children to grow towards full humanness. No human being has this right and no sane society or governing body would give the homosexuals the right to confuse our children's minds about their sexual identity and the right to defile our children's bodies by inappropriate or abusive sexual activity. It is tantamount to sanctioning child abuse.

In support of our objection, we are enclosing a copy of a Brief that was initially submitted to the Human Rights Division in Ontario. The Brief spells out our objection clearly and we urge that those concerned in any proposed changes read it thoroughly, including the references listed at the end.

Yours sincerely,
