Dear Senator Hayes,

Committees and Private  
Legislation Branch  
Comités et Législation Privée

We wish to bring to your attention our great concern about the rights of the unborn Canadian which may not be included in the constitution.

We are reminded of Prime Minister Trudeau's 1980 Canada Day statement in which he said he "would welcome comments and suggestions from any and all Canadians who may want to participate personally and creatively in the process of constitutional renewal by offering ideas for improving that statement of principles."

We, therefore, take this opportunity to strongly suggest that the 'Charter of Human Rights' include 'the right to life for all Canadians including those conceived but not yet born.'

We urge you to give this matter your full attention as we feel that if this important right is not included in the constitution the future well being of Canada will be jeopardized. Canada, the great country it is today, was built on such rights by tradition and moral teaching.

This Chapter of the Knights of Columbus encompasses the following Councils:
