Joint Chairmen, and
Joint Clerks,
Special Joint Committee of the Constitution of Canada,
Parliament Buildings,
Ottawa. K1A 0A7

November 17, 1980

Sirs,

It seems to be quite apparent, and abhorrent, that the promoters of Constitutional change are oblivious to, or ignoring, the lessons of history, in particular when they relate to monetary economics as a fundamental consideration.

To try and remedy this, we submit copies of a work in this regard entitled " CREATIVE FRAUD " together with a series of more recent and separately written articles.

It seems to be equally apparent that the educational and entrapment process over the past thirty years has been framed to mold former young minds - now members of parliament and parliamentary committees - and misled them into wanting to change the nature of Canada into a form which will remove the safeguards, checks and balances currently contained in the B.N.A. Act which protect the country and its citizens against becoming vulnerable to the whims of capricious personal ambitions, private take-over, and the actions of international predators.

In the past twelve years, Canada has been deflected away from all moves which properly protect its independence, sovereignty, solvency and unity through conceding to ultravires and sub-rosa government policies which subvert the monarchy and Crown collective sovereignty of the people by adopting programs which have guaranteed accelerating debt, debauchment, destabilization, demoralization and de-humanization in order to stake it out as prey for the private, inter-multi-national-trilateral monetarists. These policies are designed to open the front door, or leave open the back door so that these monetarists can ultimately steal the constitution after it has been changed, either by direct coup or by debt-default.

It has to be recognized that those who are in favour of contrived change, Revisions of the "Bank Act" in favour of the private banks, and pander to the protocols of the "Bretton Woods" I.M.F. World Bank- Federal Reserve and Trilateral cabal either know not what they do, or are patronized, indentured underlings to power-mongers who are outside the Oath of Allegiance to God, Queen and Country, and prefer to serve masters who are foreign, fiat money-creators and moneychangers. The performances and actions of all such renegades need to be examined, repudiated and remedied before they succeed in setting Canada to be knockedoff on the side by low-key sedition.

We submit that the proposed changes to be embedded in the constitution will enable economic security to be subverted and will be of far greater danger than the ill-conceived, though good-intentioned, Bill of Rights and French Language guarantees which are attracting the attention of most other critics.

Yours sincerely,

A handwritten signature in cursive script, appearing to read "Fred Kirkman", is written over a horizontal line.

Fred Kirkman. President.

October 23, 1980

THE CONSTITUTION ISSUE IS MORE THAN IT APPEARS TO BE. IT IS THE ORGANIZED CONTINUATION OF THE AMERICAN REVOLUTION, WITH BUCCANEERING ON THE SIDE !

Government-sponsored T.V. and newspaper advertisements are scientifically prepared, subliminal brain-washing. The public is beguiled, deceived and misled.

" The unity of a State is inevitably strengthened. and promoted, not retarded, by granting local autonomy to its component parts. Over-centralization creates hazards and brings ultimate destruction " - William Gladstone.

" Entrenchment of minority rights is the springboard to eventual fascist regime " - John Diefenbaker.

Removal of the safeguards to independence, solvency and democratic freedoms are the objectives of Special-Interest groups so that they can move in, take over and rule autocratically. Hitler and Mussolini set precedents whose examples are being followed by Liberals and Socialists alike.

The paramount danger to Canada at the present time is the subversive, parallel attack being mounted by the internationalists who covet Canadian resources, and whose aims of take-over are being assisted by the government as decoys, pharisees and factotums. The emotional furor of the constitutional issue is a smoke screen hiding the real attack.

Cabinet Ministers in particular, but almost all Liberals in general as a solid bloc representing Lower Canada and the Seigneurs, together with a few Tory and M.D.P. M.P's from Central Canada, and some Provincial Premiers, are profligate inflation-mongers and crass, blatant mercenaries who have been got to, and got at ! They are Judases to a usurous regime in an unholy alliance as indoctrinated apostates to destabilizing policies and fraudulent monetary economics implanted by foreigners, private bankers, power-brokers and an anti-monarchist who has vowed to deliver Canada to Quebec to become a French State per se.

The law-making and cheque book are to be placed in the hands of the Seigneurs (and College of Cardinals) while control of natural resources and economic conditions are to go to the bankers and internationalists.

Parliament, as a whole, is indentured to selling-out the wealth and soul of Canada to the Seigneurs, the I.M.F. and the oligarch Trilaterals, at the expense of the public, plus removal of the Peoples' Crown, democratic, commonwealth sovereignty, to be displaced by a monolithic substitute in the mold of a (Jacobin) totalitarian, corporate republic.

Amorality and immorality openly go hand in hand to subvert the provisions contained in the almost-perfect, B.N.A. Act form of Constitution which is an armoury of defenses against individual ambitions, and a bastion of protection against predators.

Adherence to the protocols of " Bretton Woods " ; Revisions of the " Bank Act " ; Buccaneering to change the nature of the constitution; and attempts to steal or destroy the sanctity of collective independence are acts of craven contrived, orchestrated manipulation, and outright treachery.... Shades of England, 1649, France 1848, and the U.S.A. 1865.

Fred Kirkman

SHAFT '80

Was the Budget written in the Granite Club, or Rockefeller's Chase Manhattan office ? All the cunning and ulterior motives of Trilateral influence and grasp permeate this document of destabilization.

The budget proves, yet again, that the government and most members of parliament are perfidiously apostate and committed to the wiles and commands of the I.M.F. from bankers outside of Canada as well as being wretched and mendacious in their attitude and actions against the people.

Continued flyíng in the face and provisions of the B.N.A. Act, which they are trying to subvert and deliver into the hands of these foreign mentors craftily changed, is the ultimate in treachery.

Why set up conditions that entail borrowing, or require debt-servicing ? Why borrow money from outside, private, foreign bankers (I.M.F. and World Bank cabal) as debt founded on fiat money carrying billions of dollars per annum in interest when money can be valuably and constitutionally created debt-free and free from interest, and thus free from taxation ?

The budget is not only a pyramid watched over by the detached eye of the corner stone, it is a pyramid of debt, inflation and destabilization as a sell out to foreigners.

We suggest loyalties and priorities are in the wrong place !

Government and Parliament loyalty is to the people of Canada - not to the private bankers of " Bretton Woods " in exchange for a mess of pottage !

Fred Kirkman

in the hands of AMORAL, INCOMPETENT, PATHOLOGICAL, SCHIZOPHRENIC PARANOIDS !

DOMESTIC AND INTERNATIONAL MONETARY ECONOMICS ARE TOTALLY FRAUDULENT, AND THE GOVERNMENT IS ACTING AND OPERATING LIKE A SAVAGE PACK OF RABID, MAD ANIMALS.

OTTAWA, at the appointed senior official and elected levels, under the Lower-Canada Liberals, has effectively set itself up to be a separate, remote and insulated state within the nation of Canada. It is a totally francophile-saturated citadel that has taken to itself ultra-vires, sub-rosa, autocratic powers under the leadership of a demagogue and Cabinet of apostate buccaneers on a rampage. Alienation with the rest of Canada is in direct proportion, and will remain thus until reversal occurs or balkanization is forced upon the subverted, reluctant other regions.

* * * * *

Equally, Ottawa, at all levels of government and through all political parties as represented in parliament, has prostituted itself and procured Canada to serve the protocols and doctrines of destabilizing, inflationary fiscal policies, and is selling-out every Canadians' heritage. Constitutional desecration and back-door opening such as Revisions of the "Bank Act" are monumental examples of induced perfidity.

Contemporary submission to the perversity of dogmatic fiat monetary policies is a national catastrophe. Continued prostration to the "Bretton Woods Agreements" and the private, corporate commands of international and multi-national big-business, big-unions, and fraudulent bankers as the lickspittle of the Trilateralists and private, foreign, fiat, debt-money creators of I.M.F./ World Bank/ Federal Reserve debauchery, has to cease.

The hidden associations of world manipulation are forces of witchery that seem to have Canadian mandarins and politicians either mesmerized, patronized, indentured or entrapped. This unholy alliance is the cause and effect of all that is wrong with the economy. Canadians, under the current constitution, are rightfully entitled to unintimidated, democratic independence, sovereignty, freedom, solvency and abundance yet these safeguards are being impaired and peddled to those who would grasp for themselves the ability to control and extract a price to their profit on life-sustaining natural resources, energy, food, clothing and shelter.

The future of Canada will never prosper under either the Grits, the Tories or the N.D.P. per se. It can only be worthwhile under the management and administration of a new political presence taking the best from each, and from others, to be molded into an enlightened and revisionist, self-supporting State.

Current money and all debts - National, Public and Private, and the private, chartered banking system must all be repudiated. The new system must use new money as a debt-free medium of distribution which benefits the people and the nation as a whole - not as now whereby it is a commodity, disguised as credit, carrying usurious interest rates which benefit only the private, fiat money-creators who, in this instance of Canada, are foreigners who covet our wealth, resources and potential; and are fleecing us !
