House of Parliament,
Ottawa, Ontario.

Dear Sirs :

On behalf of Voice for Life, our local pro-life organization, I wish to express that we support the Alliance for Life Brief presented to the Joint Committee on the Constitution of Canada.

Because the existence of human life from the moment of conception is an irrefutable scientific and medical fact, we urge that the right to life of the unborn child from conception onwards be spelled out in the most explicit terms in the Bill of Rights.

With regards,
Yours sincerely,

Sally Campeau
