SENT TO PROVINCIAL COMMITTEES

In three months' time representatives from all sections of Canada and from all walks of life will convene in Ottawa to assess the year's Human Rights programme, to examine the present situation of Human Rights in Canada and to decide where to go from here.

As most of the 1968 effective projects were initiated by the provincial committees, so also can we expect the major decisions at the National Conference to come from the delegates of the Provincial Committees. They were the people involved during the year and they most likely will be the ones to give effective leadership in the carrying out of the recommendations affecting the post sixty-eight programme.

We know that your committee has already given much thought to the selection of its delegation and that it will be a true spokesman for your area. Each provincial committee is entitled to five delegates. They do not have to be members of the committee.

We know that finance is often a serious obstacle to overcome when travel expenses constitute a sizeable item. May we suggest that you do not overlook the possibility of financial support from your Provincial government. It has shown noticeable interest in your 1968 programme. It might be useful to remember also the Federal agencies which may have previously assisted you financially during the year.

Will your committee be there? That is up to you. But now is the time to plan your participation.

- (a) The programme is substantially set (copy attached)
- (b) Excellent and competent speakers have accepted to address the delegates.
- (c) Special seminars on many crucial aspects of the question are being organized.
- (d) Working papers are being prepared and will be mailed to you at least a month before the Conference.

We expect you to prepare specifically two items for the Conference:

- (1) An activity report covering the various projects initiated and developed as part of the International Year programme on Human Rights.

N.B. To be sent to the Canadian Commission on or before October 15 and thence distributed to the delegates before the Conference.

- (2) A 5 to 10 minute statement on the Human Rights situation within the Province covering the legislation, the gaps, the attitudes, the crucial problems and the urgent solutions. 500 copies: 350 in English and 150 in French.

N.B. To be ready for distribution at the Conference following the verbal presentation of the statement at 11:00 a.m., December 2, 1968.

We request that you ask your delegates to return the registration form to us as soon as possible and the enclosed reservation card, to the hotel.

Our closing thought for this communication is:

"Human Rights is everyone's business! A full delegation from your group to the Conference is an excellent way to ensure the protection of your own."

Yours truly,

THE NATIONAL CONFERENCE COMMITTEE.

Alban Daigle
Alban Daigle
Secretary.

P.S. Although the Commission shall assist those provincial committees which are not equipped to mimeograph and translate, you can understand why it would be very grateful if:

- (1) your committee would submit its report in English and in French
- (2) your committee would send us 450 English and 150 French copies (8½ x 11) ready for distribution.
