Before re-organization.

Director DAVIE. (10/ 1/2)

1. FRED - director of the corporation. Traviously he worked with (our ?) neighbours up to 1924.

In May-June 1942 came to DAVY with a proposal to join. DAVY checked up on FRED through New York (?) (MOLI'R). The neighbours proposed to use FRED. After this in 1942 September PRED contected DAVY on instructions from MOLIER. MOLIER was sent to work in Ottewa to organize the work (In ? ? ? in the parliament of Muebec).

FRED's work.

??????

1. GRAY (MCLaw) Montreal Group (A ERIVISNE) Jew. Superintendent of the Department of the Directorate of Defence of the Allies on War Materials. To take the work on 1.9.42. Works well. Gives materials about ??? and guns (???)

Squadron Leader

Mat NANTINGALE (probably NIGHTZNGALE), 155 0 CONOR ST., Apt. 1 Telephone 2.45.34. SAM is known to him as WALTER. The first meeting took place 19.12.44 at 21 o clock at the house.

Possibilities: 1. Network of Aerodromes in the country (both coasts).

2. Map of the coast.

He has been detached (literally - torn away) from the corporators, that is he is reserved for the future. He does not work in the corporation, the contact is merely of a control nature twice a year. He is married to an Englishwoman, is getting a divorce, she is going to England to her mother. Reason - she does not like Canada. Prior to the war he worked with the Bell Telephone Co. On 25.1.45 he advised BRENT about his demobilization. He is going to the Bell Company. Next contact on 24.2.45 at 20:30 at the corner of Elgin - MacLeod Sts. At the contact on 24.2.45 he gave the address MAIR -1671 Sherbrooke 57 (51) Letter. Telephone 1.16.84. Next contact 24.3.45 at 20:30 Metcalf - Somerset. He will rive the coast (BBC) and listening-in on the telephone.

Task -- (1. Recruiting (call-up)

(2. Materials of the company.

(Ha : ...)

BACON. (Trans. note: - The first four lines on this page are translated from the English at the bottom of photostat. There is no English original to conform with the rest of page marked 1). The following is the English translation from the Russian.)

It has become very difficult to work with him, especially after my request about Ur 235 (Uran 235). He said that it is absolutely impossible to get it, as far as he knows. Thus for example, he advised that probably there is not any appreciable --(The English original ends here. Now follows the translation from the Russian) -- quantity. BACON explained to me the theory of atomic energy, which is probably known to you. He refuses to write anything and does not wish to give a photograph or information about himself. I think that at present he appreciates the gist of my requests more fully and he does not like them very much. With that kind of thoughts which he has, it is impossible to get anything from him, excepting oral descriptions, and I am not in a position to understand everything fully where this touches technical details. I asked him what is involved in the building of a very large plant (Chalk River near Petawawa, Ontario) in general opinion, the principle of which is based on the physical characteristics of the atom, in connection with his expressed opinion that URAN 235 was impossible to obtain. He replied that he does not know. He thought that the project was still in the experimental stage.

(Russian passes on to page 2)

Then he described to me the general principles of the electron shell and the bomb detonator, which are being produced in the plants in the U.S.A. and Canada, which is the reason for the accurate fire of destruction of rocket bombs (V-bombs). It has the form of a small transmitter of high frequency, the ray of which is reflected from the target. When the power of the reflected wave in opposition to the rayed frequency reaches a definite strength the battle (destructive) charge is exploded electrically. I asked him if it would be possible to obtain instructions for it, he replied that that would be possible. I was not able to extract enything in other ways. conclusion, Becon(took the position) an ounced that he will tak with me but he will not write anything whatsoever, and I do not think that he is ready to begin to work more deeply, as for example -- to obtain samples (specimens). He says that he does not know anything but what is already known to you.

Вопросы подлежащие выяснению Джаке и Дике.

1. Для обоих.

1) Выяснить основные служебные данные:

- а) Занимаемая должность, где служил раньше;
- б) Перспектива остаться на службе после войны и где;
- в) С какого года в армии, любит ли службу;
- ř) Взаимоотношения с непосредственными начальниками.

2) Выяснить краткие биографические данные:

- а) Возраст, родители, семейное положение;
- б) Образование, основная довоенная специальность;
- в) Партийная принадлежность, отношение к политике Кинга;
- г) Материальное положение, наклонности в создании семейно-материального благопоружия (намерение заняться бизнесом, иметь машину, свой дом и что затрудняет осуществить этот план).
- д) Отношение к нашей стране и ее политике;
- е) В чем видит процветание Канады (в дружбе с Америкой или в сохранении Английского влияния);

3) Персональные положительные и отрицательные стороны.

- а) Склонность к выпивкам, хороший семьянин;
- б) Дюбитель веселиться, склонность к уединению и тишине;
- в) Влияние жены на его действия, самостоятельность в принятии решени:
- г Круг энакомых и их краткая характеристика.
- 4) Платформа в дальнейшем (идеологическая или материальная подлежит определению).
- 5) Особенности: 1) Первый француз и вся семья французска:
- 2) Второй англичанин, а жена француженка. Взгляды у них на некоторые вещи различны, но он зная строгости католической религии стреми

I confirm: GRANT

5.11.44.

Questions requiring explanation by LAMONT and
BRENT about JACK and DICK.

1. For both.

1) To explain the principal service data:

a) Present occuration, where did he work previously;

D

- b) Prospects of remaining in the service after the war and whore;
- c) From what year in the army, does he like the service;
- d) Relations with his immediate superior.

2) To explain brief biographical data:

- a) (Are), parents;
- h) Education, principal pre-war specialization;
- c) Party affiliation, attitude towards the politics of KING;
- d) "inancial status;

trends re establishing his family welfare (intentions to engage in business, to own a car, his own home and what impedes the fulfillment of this plan).

- e) Attitude towards our country and her policies;
- f) Wherein does he see the development of Canada (in friendship with America or in retaining English influence).
 - 3) Personal dependability and negative sides.
- a) Inclination for drinking, good family man;
- b) Lover of good times, inclination for solitude and quietness;
- c) Influence of his wife on his actions, independence in making decisions;
- d) Circle of friends and their brief characteristics;
 - 4) Platform for the future (idealistic or materialistic require establishing) -
- 5) Especially: 1) The first Frenchman and all the family are French.
- 2) The second Englishman (Anglo-Saxon), but his wife is a French woman. Their views on some points are different,

ся жену не обижать в связи с чем отказывается иногда обсуждать вопро сы, которые касаются религии его жены.

Оба, как первый, так и второй работают на ответственных должностях, следовательно дали подписку о неразглашении военной тайны,
поэтому характер работы должен быть обычным — личное общение с беседой на различные темы, начиная с себя, со своей биографии, службы
и житье, временами спрашивая их, как бы для сравнения того или иного
положения и т.д.

Ламонт.

but he knowing the strictness of the Catholic religion endeavours not to offend his wife in which connection he occasionally refuses to discuss questions which concern the religion of his wife.

Both, the first as well as the second work in responsible jobs, therefore they gave their signatures not to divulge military secrets. Therefore the character of the work must be usual--personal generality with conversation on various themes, beginning with themselves, with their biography, occupation and life, at times asking them as if for comparison with this or that situation, etc.

LAMONT.

To The Director.

Deboise advised that the Minister of Fisheries Bertran told him that the war will end in a month, that is about lst of eptember of this year.

Three days before the uprising, the attempt on Hitler the same Bertran told Peboise that very shortly there would be events of tremendous import in Europe which no one suspected. Jean Louis Gagnon told Peboise that the head of the French Telegraph Agency in Mashington, Saint Jean, told Jean Louis that the Washington government knows and is convinced that the German generals did everything possible to insure the landings of Anglo-American troops in Normandy.

Jean Louis Gagnon also told Deboise what he caulte had told him during his presence in Quebec City. De Gaulte - "I am extremely surprised at the extraordinary slwo advance

To The Director.

Gray's wife has relatives in Bukovina and Bucharest. Apart from relatives she has many acquaintances among doctors and other specialists. Recently Gray handed Davie a reply of the Canadian Red Cross of March 1942 wherein it is announced that the relatives of Gray's wife are in the own home, that is in Roumania. Gray's wife through Gray asks advice as to whether it is possible to send them money or other things.

Tavie replied that this was a complicated and difficult question, and that he could not promise anything. He suggested he be furnished with addresses and letters from Cray's wife for these acquaintances. In the letters it could be proposed (that is through Gray's wife - he will agree to that)

To The Lirector, on N.

SS Burnen

I advise you appearance for Berman in London. The meeting will take place two weeks after Berman's departure from Bontreal. The first Sunday after his departure is to be counted as the date of his departure, even if he should have left on a Wednesday. The meeting will take place at 15 hours Bunday in front of the office of the High Commissioner for Canada, London, S.W.l. (Canada House, Trafalgar Sq.) If the first Sunday it does not take place, it will be transferred to the next Sunday at the same hours etc. until contact is established. Berman will be in civilian clothes -

authoramapaine naprime no opprasore brown wuit (tweed) a raincoat without a hat, with a newspaper in his right hand. Pass-word: "how's Plaie?" Berman will reply: "She's fine".

Thereupon our men will give him a letter signed "Frank".

If the meeting at the designated place appears impossible, or inconvenient for us, Berman will send his address to his wife, the latter will give it to Debouz, and the latter to us and it may be possible to undertake the contact at the address of his living quarters. When you advise us that the contact will be more convenient at the apartment, then we will tell Debouz, and he (will tell) Berman's wife. Berman's wife will write him a letter with the following phrase: "Ben has not been feeling too well." After that he will await contact at his apartment.

Supplementary data.

He entered the Party in 1938. Worked as an insurance agent. His wife entered the Party in 1939. During the illegal period he worked in the central apparatus of the Party on organisational work.

Results of the last meeting of BACK's group (research)

1. BACON - categorically refused to give any kind of written information and also any kind of documents to be photographed. A possibility exists that he is afraid. He gives only oral information and this does not answer our purposes since BACK is a writer and not a scientific worker. In an oral conversation he told that Canada and the United States produced special electric projectals for the cities which automatically can be accurately simed by radio.

Electro-shells are called "V bombs". It consists of a small high frequency sender which manufactures the waves which rebound from the target. These shells are already used on the front and there exists special instructions which he did not absolutely consent to bring.

2. BADEAU - wants to work. Gave written information about research in the fields of radio technique optics and various apparatus material, is very technical and is hard to make it out on the place. Sent out by mail. It is necessary to have concrete questions for him. According to facts given by him the organization of the National Research Council from the top down is as follows - the Committee of the Secret Council for Research Problems, Chairman O.A. MacKennon. Under him is

(Nother 1)

3. BAGLEY - So far no contact has been made. The reason is that he lives so far out from the city and his wife's influence who does not want him to gallivant around at night. To BACK's suggestion for a meeting he answers that he is working and will continue. He suggests a meeting at his house. BACK communicated that he will have a meeting with him during the period of 5-20 and 6-5. He-added-that-Bagley-knews-nething-about-his immediate-work-since-Debeise-talked-with-him-and-he talked-te-him-end-generally-he-recommended-te-him-fer BACK-te-get-acquainted-and-enly-after-that-for-him-te start-working-with-him.

4. As to BACK himself the possibility does not exist to use him as a contact. At the last meeting he said that a baby will be born to him the end of June.

CONCLUSIONS DRAWN:

- 1. Tell BACK to continue to draw BACOM into our work gradually and to take dictation from BACOM some time and also to make drawings by hand.
- 2. It is not recommended that BADEAU should transfer into the uranium industry but is to do broader work in the Research in the future so that he can do greater research himself, disconnect him from BACK's group and make him have independent contacts.
- 5. To recommend that BACK have one meeting (for contact) at BAGLEY's epartment and that they there agree upon future meetings.

To The Director,

The Prefessor advised that the Director of the National Chamical Research Commistee Stacey told him about the new plant under construction: Filot Tlant at Grand' here, in the province of Quebec. This plant will produce "Uranium". The engineering personnel is being obtained from McGill University and is already moving into the district of the new plant. As a result of experiments carried out with Uranium it has been found that Uranium may be used for filling bombs, which is already being done in a practical way. The Americans have undertaken wide research work, having invested 660 million dollars in this business.

To The Director on N.

Today we received through Deboise: a photograph of Berman and a letter signed by Deboise for Berman. Below is given appearance worked out by Deboise for Berman. Berman will know one thing, that the letter will be given him by Deboise's man. The latter is known to him as Frank. The contact must take place two weeks after the departure of B. from Montreal counting Sunday, in front of the building (office) of the High commissioner of Canada Sunday at 15 hours. If it does not take place - it will be carried over to the following Sunday at the same time etc. until the meeting takes place.

14.4.44. DAVY rang her up on these telephones but she was not there.

HISTORY.

In December 1943 she rang up TUPKIN and asked to be received on an urgent matter. T. refused, but afterwards received her. She outlined the gist of the matter to him. TUPKIN questioned her, but what she replied to him is not known. After that she wrote him a letter in which she wrote (9.3.44) that she had received through a reliable canal a letter from a friend in Geneva and attached it. Context of the attached letter, "We live in the old apartment and work with the old firm. Two weeks ago SISI sent you a telegram. Tell us how did your journey to GISEL's parents turn out. My health is excellent. ALBERT is sick and will probably leave his profession for a long time, he is in bed. Relations with LUCY are good, she is a very good woman. GISEL's family for some reason is no longer interested, although up to the present she was

a support. LUCY's position has improved. SISI's position is sad. Please inform GISEL's parents that they must hand over 6,700 dollars. sum must be handed over by you. There are no other possibilities. GISEL must bear these expenses. Advise me about ALEKSANDER where is he. "RACHEL. After this PAVLOV (insert) 2 secv. neighb. questioned his master who, according to PAVLOV, allegedly replied that this is their person and you (PAVLOV) need do nothing. At the same time he questioned PAVLOV about her address, which he did not and does not know. LAMONT's question why they did not inform us about this for so long, PAVLOV replied, I was directed to do nothing. Not having received a reply to the letter and the telephone questions 13 April, this is the day of DAVIE's journey to HERMINA's town, the latter writes two letters to TUPKIN with a request to take measures about her first letter and for convincing attaches to this letter a second letter from RACHEL of the following context.

transferred by Washington and hand it over to HERMINA in New York as it is danger to cross the border with such a sum. From one side our banks will not release American dollars.

The letters with copies of RACHEL's letters have been sent by mail and in all probability passed through the censor although there is no censor's stamp. The two copies of the letters where the subject touches ZNAMENSKY 19 are especially harmful. Please appoint a man for future procedure bearing in mind that DAVIE cannot go to New York and Washington. I await instruction about next meeting also money.

Home Telephone - Lancaster 76.28

Business - Plateau 25.07.

Address. Apt. 538 PAIN Ave. not far from
University St. (2 weeks from 19.4)

5 May LEON met HERMINA, the latter reported (told):

- 1. The correspondence with Geneva is carried on with the aid of letters and telegrams. The letters we sent as part of the mail of her organization and are not embject to scrutiny. The letters go (take) from three weeks to a month. Telegrams several days. The last letter took about one month, she does not know the exact number of days.
- 2. She knows not GETA (may be HETA or HET) ABRAMSON but ALEKSAHDER ABRAMSON. She does not correspond with him, but can have. (meaning in the future). She knows that everything is in order with him. Also she informed that in June 1941 he intended to go to Moscow but the beginning of the war interfered and he remained there. His visa was of 27 June.
- 3. She knows SISI as a good friend and helped her as a good acquaintance. She did not know anything bout SISI's work previously. SISI's first letter was for me unexpected. About SISI's circumstances she knows nothing.
- 4. She is fully convinced that the letters were written personally by SISI. Indication -- hand-writing and signature, which are well known to her.
- 5. The determined (emphatic) request of SISI the deposit of money in the company is unknown to her and furthermore she does not know of any designated company. On her side she considers that SISI told the firm about me (HERMINA).

HERMINA can deposit the money, but she would like to receive a cheque as it is difficult to carry such a large sum over the border. HERMINA enjoys right equal to persons who have diplomatic passports.

Conduct -- natural. She wrote the letters to TUPKIN because TUPKIN had received her very strictly (severely) once, and the other requests about a meeting and the telephone conversations were refused, which contrasted acutely with my (HERMINA's) reception in Moscow where the reception was very warm (meaning sincere).

Macia puradereques channel Remissorum seron a somy poesony lungo lasorava sen krai coperum serone a serone demany beneral serone deman deman serone serone serone serone meneral robustante serone ser

108

She considers that there is no suspicion whatsoever about her. In her opinion letters being sent to her town our town appear to be not subject to the censor. The next (meeting) set for 17 of May, 20 of May she leaves for Philadelphia on her own office business and could take advantage of this journey as a good pretext for handing over the money.

Appearance -- stout woman 45 years, lame in both legs, moves with the aid of two sticks, but at the same time drives her own machine (meaning car).

Conclusion -- the meeting under the cover of both contacts passed entirely normally.

I request your further directives.

6.5.44 LAMONT.

38

Dear Hermina.

Thank you very much indeed for your care in our affairs and we hope that you will help us in future. It is important for us to send a letter to Geneva to Sisi. Can you send this letter with a reliable man to whom you trust. All expenses will be paid. Please let us know about your proposals in this connectoin as soon as possible. Please inform us about delivery of your service mail to Geneva and why are you sure that it is not censered Tlease wire to mashel or Alexander that Gisel's parents are interested about the health of Sisi and Taul and that they will help them, we ask you to forward IO. OOO \$\tilde{\pi}\$ to that watch company according to the Sisi's instructions. Make arrangements with our representative about forwarding of this sum of money to you in USA. All your personal expenses will be paid.

with best regards

Gisel

Meneba international laboration of laboration of laboration of Geneva.

31.7.44 LEON met HERMINA, the latter informed that she had given the money to the owner of the firm but he did not know anything about the money. After this she sent a telegram to ABRAMSON and he, after a few days, replied that he had not received the money. LEON advised (her) to send another telegram to ABRAMSON and one to the owner of the firm.

Rote meeting 1 or 4.9.44 at 21 (possibly 15) LEON has the time of meeting smudged. on McTavish St.

Task - the characteristics of the institution.
28.8.44 LEON met HERMINA, the latter informed that she has not received confirmation from ABRAMSON about receipt of the money, but received a telegram from the head of the firm in New York, who advised that he had received a telegram from ABRAMSON of the context "Thanks for the warm greetings." She considers that the money has been received. At the present time it is impossible to send a man to Geneva. There is no reliable man and the contact in Geneva.

Address of ABRAMSON:

Business: Geneva, International Labour Office.

Home: 3 Chemin Bertrand, Geneva.

(on the reverse side)

Next meeting 28.9 at 9(21) McTavish Ot.

Exquesiag 28.9. 190 (21) ble tarish et.

Enclosed a short Memorandum on the International Labour Organisation.

I am entirely responsible for the views and opinions expressed in it. There are based on a long exprience in the I.L.O. and on personal knowledge of most of the members of the Staff.

I am, of course, at your disposal for any supplementary information as well as for the translation into Russian.

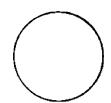

Enclosed also a certain number of annexes.

Germina Rabinowitch

CORBY CASE (Vol. III)

Copy No.2

Part II

Digests of Telegrams obtained from Department of External Affairs by Emma Woikin ("Nora") in her own handwriting.

From the Secretary of State for Dominion Office & to - External " London, any 31, 1945 Hungary British Political Ryresentative advises that municipal elections in Hangary are to be field latitue 12 " ineral Apiklos pays the Turanam ere Purrying up the elictions, but is afraid to oppose too - tremously as he may be porced esign a may be by aced on the Excreme Keftisto. British Political Representing thinks that these elections are to be held as a test. If the is theme well be favourable to hefted. They and the Newscans will rush a general election soon after.

Irom the Secretary of State to Commence affair Tale

Rondon aug 28 21000

Spain

Donnes pointed out the The Hendre for Joreign affair Mr Deven Elect Kitarines carrying out The a ruments of the Potodon 6 ference concea (, en regard Jean Dousev said, from . speech is gust soth, and could well see That tion was intended against Devin said that Dutain rand willebre a change of Tovernme in spain, but in a not countenance any . to hat would bring en com. The also added chait & main carriery out la agreement i Pott dan Conference From: The Secretary of State for Womenon Officer. Endon External Officer Ottom corden, eng 24, 1905 Tis Mayesty's Ambrovalor Belgrade i heard from a number of sources that , ruly ser fighting between Ty Ofigolav armie and Eilneka going on to be enat of Panyalaha. De pug to that thenere. Mikaie recimagée there.

House made no reply.

Iron: The Secretary of State for Vomenion offair lands London, King 24, 194, The crobben of Belgaria, Sugarlavia, Mungary, and Moumana, has seen trought up and discussed en a piecemed pasticon time and Time, but so a whole, as . I really is the same problemy fices a has never agreed to encero it . They are all under the influence and paper main of Marona. Election are being planned in all these courses, but they well only result in a totalitarian system . . . again under the purposession of the Russian We have to gain the confidence a attention of these countries and nove to show what we i are to offer in ways of economic and culture.

-2-The present continual differences in regard to these countries will endanger our relations with stonet duion. There is not would hope for Augachavia having a Democratica Dito is evadently breaking al agreements of inhave til agreement, but we ful it is too early to styp in austria has a better chance of forming a Vernocracy than any o, the ter countries because 24 of it is a cupied by Smited Rengdon I take, and Irance alice get in case of forming a comment, it will be the fun sported from Aloscow that will he the lead. has differences will eventually to pout different openions between " I ited States, and a force a have to try to present allori. **\$**0

CORBY CASE (Vol. III) Copy No.2
Part III

Extract from report by Gerson ("Gray") of Ministry of Munitions & Supply.

(N.B. - Probably in his own handwriting or that of his wife)

The gun being slightly iterated, some inquired RDX/TNT flowed back along the proves into the chamber. The shell were rammed by hand, no great force being neclessary. Kesult was normal. Firing 1 (c) Five more shell were taken out of the bath and laid on their sides. Excedition was noticed on one shell, but was very slight. This was after three hours' immersion. The first shell was after three victomed to work in the guin and the atless in the vir. Gave was taken that the position of the shell was kept the same with outside and visible the gum.

The liste the fun first the cause wind not not sieved the gum.

Firing 1 (d) The remaining shell were treated as in the firing 1 to) incept that they were allowed to cool either before of RDX / TNT who the bore, the gun was kept at a slight elevation for 3 rounds; in the fruit two rounds the right was added with the gun horizontal forting the shell of worded and allowed to cool in the same position. Firing result was normal.

indicate that the filling becomes sufficiently liquid after heating for , hour at 10000. for the spice above the gaine to be -filled with - liquid Exidation from the shell was not observed in the the shell had been kept int 10000 for wer 3 hours and then only very slightly in the case

their shound a slight amount of execution int in a case did it through the franchity of expense added their the trial.

It is there there not only that there is very cittle execution of RDX/this from the 525 inch she at 100%, even after prolonged heating, and asce that untificial fourly to endager the gun when firing either heated or wich shell. The uniformly solutionary has eiter up the results is however son and so and the president of an inferred in the suspected break-up in the solution of the president of an inferred in the president was a burst in the suggested the mentages cannot be income and the mentages cannot be income and

with realed shell is personally reasoning and gives in wide a for above premature to see is more risk of a bove premature in 8" tian in amany hims. The case for wording out a surcher pering with 8" as the hinger maily on the fraulty of ricing that is likely to a included under outself had give a partions. Easier the what is a prince of the obtained from a house of the contained of the Koard concert of J. N.C. The trail can be a destroice of the Koard concert of the property of the fellings for companion. Three sheet of each fillings for companion. Three sheet of each fillings for companion there sheet of each fillings of the remark and fillings.
