INTRODUCTION

INTRODUCTION

The National Security Plan for the 1976 Olympics includes the broad strategies, operational and organizational structures, and policies which were developed in line with the cabinet decision of June 1, 1973, that the government should adopt a strong security posture for the 1976 Olympic Games.

The National Security Plan formed the basis for detailed operational planning of the security forces.

CHAPTER 2

COORDINATION AND PLANNING
STRUCTURE

000011

PLANNING AND COORDINATION STRUCTURE1. Federal1.1 COMMITTEE OF MINISTERS

A committee of Ministers was formed drawn from the Cabinet Committee on Security and Intelligence and consisting of those Ministers having a direct interest in Olympic Security, which would, subject to Cabinet confirmation, consider and approve, where appropriate, federal involvement in security planning as it developed which might include negotiations with appropriate Ministers in Quebec and Ontario. The President of the Treasury Board chaired this Committee.

PLANNING AND COORDINATION STRUCTURE1. Federal (Cont'd...)1.2 INTERDEPARTMENTAL COMMITTEE

An Interdepartmental Committee was formed in December 1968, composed of representatives of the Departments of National Health and Welfare, External Affairs, National Defence, and Industry Trade and Commerce. Representatives of the Treasury Board Secretariat and of the Privy Council Office and of such other Departments, as it was deemed advisable, were also invited to have membership in the Committee. Those departments which eventually became members are shown in Annex 1.

The Committee was asked to:

- coordinate federal involvement and planning;

PLANNING AND COORDINATION STRUCTURE1. Federal (Cont'd..)

- 1.2
- maintain liaison with the provinces and municipalities, the Canadian Olympic Association and the Organizing Committee to handle arrangements for the Games;
 - review requests for administrative, financial and other support for the Minister of Health and Welfare;
 - review and make recommendations on other problems relating to the Games.

1.3 FEDERAL LIAISON UNIT

From within the Interdepartmental Committee a Federal Liaison Unit was formed whose activities were identified as:

Roger DUBE - would coordinate problems on coinage , stamps, budgeting, general costing and cultural activities which would run parallel to the Games.

PLANNING AND COORDINATION STRUCTURE1. Federal (Cont'd.)1.3 FEDERAL LIAISON UNIT

Leon GERMAIN - Coordinator of:
-security
-immigration
-broadcasting
-Olympic Village
-Autostade

Jim F. FULTON - Coordinator of:
-lottery
- DND involvement

1.4 FEDERAL SECURITY COORDINATOR

Following a decision of the Cabinet Committee on Government Operations on June 1, 1973, the Solicitor General was authorized to instruct the Commissioner of the Force to augment RCMP resources in personnel, material and finances, as required subject to Treasury Board approval in order to support the security posture recommended, and to appoint a coordinator of security planning who would:

PLANNING AND COORDINATION STRUCTURE

- 1.4
- include in his responsibilities, coordination of the Federal involvement and liaison with COJO;
 - embark immediately on further detailed discussions with DND, COJO and the provincial and municipal police authorities concerned with a view to determining and reporting to the Committee of Ministers (through the Commissioner and the Solicitor General) the level and nature of security resource requirements based on agreed task sharing.

1.5 FEDERAL DEPARTMENT COORDINATORS

Similarly the Departments of External Affairs, National Defence, Manpower and Immigration, National Revenue (Customs and Excise), Ministry of Transport, Canada Post and National Harbours Board Police, appointed personnel to coordinate their total involvement in the Olympic security in accordance with their respective departmental policies.

PLANNING AND COORDINATION STRUCTURE1.6 INTERDEPARTMENTAL SUB-COMMITTEE ON SECURITY

On July 30, 1973, the Chairman of the Inter-departmental Committee directed that a sub-committee on security be formed and chaired by the Federal Security Coordinator. The main purpose of the Sub-committee was to explore the needs of each Department involved in the Olympics and to arrive at figures which would serve to represent the total amount of manpower, equipment and other resources required to maintain a proper security posture to protect the Federal interests during the Olympic Games.

The composition of this sub-committee was made up of Federal Department representatives having a direct interest in security matters.

2. Combined Federal-Provincial and Municipal
Planning and Coordination Structures

2.1 Comite Superieur Pour la Securite des
Olympiques (CSSO)

CSSO was formed on July 15, 1974 to review, from time to time, the security planning for the 1976 Olympics and give policy direction as may be required.

Members of CSSO:

Deputy Solicitor General of Canada
Mr. Rober Tassé

Deputy Minister of Justice for Quebec
Mr. Robert Normand

Deputy Solicitor General of Ontario
Mr. Allan A. Russell

President of the Security Council
for the Montreal Urban Community
Mr. Paul-Emile L'Ecuyer

The President and Commissioner General
of COJO
His excellency Roger Rousseau

PLANNING AND COORDINATION STRUCTURE2. Combined Federal-Provincial and Municipal
Planning and Coordination Structures (Cont'd..)2.2 Committee of Directors

A Committee of Directors, made up of the heads of security forces involved in Olympic Security, was formed and held its first meeting on February 6, 1975.

The responsibilities of this committee were to monitor the overall Olympic Security measures from a strategic and policy standpoint.

2.3 Provincial CoordinatorsQuebec

On March 30, 1973, at a special meeting of COJO attended by the Commissioner General of COJO, His Excellency Roger Rousseau, the President of the MUC Security Council, Judge Jacques Codere, the Vice President of COJO Services, Mr. Simon St. Pierre, the Senior Administrator for COJO, Mr. Maurice Girard, The Director General of the S.Q., Maurice St. Pierre, Assistant Director André Guay, MUCP C/Supt. J.T.J. Quimet, RCMP, Insp. G. Begalki, R.C.M.P., Insp. Yvon Aubin, S.Q., Insp. R. Turpin,

PLANNING AND COORDINATION STRUCTURE2. Combined Federal-Provincial and Municipal
Planning and Coordination Structures (Cont'd..)2.4 Quebec

S.Q., and Chief Insp. G. Toupin, MUCP, it was agreed that there should be a Principal Security Coordinator of all police forces concerned in Olympic Security and that he should be an officer of the MUCP.

Assistant Director G. Toupin, MUCP, assumed that responsibility. His mandate was the coordination of the efforts of all police and military forces involved in Games security, and particularly those of the MUCP, QPF, OPP, RCMP and CF.

The Principal Security Coordinator is responsible to the Committee of Directors and CSSO.

PLANNING AND COORDINATION STRUCTURE2. Combined Federal-Provincial and Municipal
Planning and Coordination Structures (Cont'd..)2.5 Ontario

On September 30, 1974, the Deputy Solicitor General for Ontario appointed A/Comm'r. K.W. Grice of the OPP to the position of Police Coordinator for the Olympic police operations for that Province.

OPERATIONAL STRUCTURES

OPERATIONAL STRUCTURES1. Federal1.1 Solicitor General - Police & Security

Planning and Analysis Group (PSPB)

1.1.1 The Cabinet Committee on Security and Intelligence has named the Solicitor General of Canada as the lead minister in the Federal Government in an internal security crisis where Federal interests are involved.

1.1.2 The PSPB will staff the Solicitor Generals' Information Center for the Official period of the Games.

OPERATIONAL STRUCTURES

2. Royal Canadian Mounted Police
Emergency Operations Center (EOC) Ottawa

- 2.1 To provide a central response and coordination center to field divisions, the E.O.C. will be manned on a 24-hour basis. The E.O.C. will also monitor and coordinate all information relating to Olympic activities in order to provide up-to-date briefings to the Commissioner and other Senior Officers of the Force.

OPERATIONAL STRUCTURES3. Other Federal Departments

- 3.1 All Key Federal Departments having a direct interest in Olympic Security will provide 24-hour service through the establishment of operations centers or designated duty officers on 24-hour call.

These include:

(a) Revenue Canada, Customs & Excise

24-hour service in each region through normal operations or on call arrangements.

(b) Manpower & Immigration

24-hour operations center - Montreal
Duty officer listings - Ottawa
A sub-office will be in operation at the Montreal Olympic village.

(c) Department of National Defence

The National Defence Operations Center in Ottawa (NDOC) will be operational 24 hours a day, and linked to the E.O.C.

OPERATIONAL STRUCTURES3. Other Federal Departments (Cont'd..)3.1 (d) National Harbours Board Police

A 24-hour service in Montreal through the Operation Center located at the Port of Montreal. Standby personnel available on call in Ottawa.

A Liaison Officer will be posted at the Coordination Center, Montreal (CCSJO).

(e) Canada Post

Aside from staff located at the screening and detection center, headquarters staff will be available on standby in Ottawa to answer and take action on any queries relative to the screening of mails for athletes or VIPs participating in the Olympics.

OPERATIONAL STRUCTURES3. Other Federal Departments (Cont'd..)3.1 (f) Transport Canada

Staff are available through contact points 24 hours a day throughout the Games.

During a crisis situation involving civil aviation, the National Civil Aviation Security Coordinator Operations Room will be activated and functioning as the main point of contact.

A member is assigned to the Coordination Center Montreal (CCSJO) for the duration of the Games.

(h) External Affairs

Personnel available on call and a member stationed at the Coordination Center, Montreal (CCSJO)

OPERATIONAL STRUCTURES4. Combined Federal, Provincial and Municipal
Operational Structures4.1 Comité Supérieur Pour La
Sécurité des Olympiques (CSSO)

- 4.1.1 In the event of an emergency, members of CSSO will be available to provide a link between the security forces and the Federal and Provincial Governments.

4.2 Centre de Coordination de la Sécurité
des Jeux Olympiques (CCSJO)

- 4.2.1 For the Olympic period, a joint forces coordination center will be located at 4375 Ontario Street, Montreal, in close proximity to the Olympic Park and Village; operational on a 24-hour basis.

- 4.2.2 The Principal Coordinator Mr. G. Toupin, will be in this center with support staff and assistant Coordinators from the following agencies:

Montreal Urban Community Police

OPERATIONAL STRUCTURES4. Combined Federal, Provincial and Municipal Operational Structures (Cont'd..)

4.2 Quebec Police Force

Canadian Forces

Royal Canadian Mounted Police

Ontario Provincial Police

4.2.1 There will also be representation from:

Montreal Urban Community Fire Dept.

National Harbours Board Police

Ministry of Transport

Assistant Coordinators and representatives from other agencies, in a liaison capacity, will keep the Principal Coordinator informed of operations through contact with their respective services.

4.2.2 A floor plan of the Center is outlined in Annex 1.

4.2.3 In addition to the Coordinating functions of compiling information, providing situation reports, assisting the various operational centers and its role in "STRATACUR" (the emergency operations plan), this center will be the link with the olympic organizing committee operations center (COJO).

OPERATIONAL STRUCTURES5. Kingston Operations Center

- 5.1 To control and coordinate the many activities at Kingston, a joint forces operational center will be established in the Kingston detachment of the R.C.M.P.

with representation from:

Ontario Provincial Police

Kingston City Police

Canadian Forces

Royal Canadian Mounted Police

- 5.2 The Ontario Provincial Coordinator will maintain liaison with this Center.

6. Other Operational Centers

- 6.1 All other police and Canadian Forces plan to staff Operational Centers in Montreal, Toronto, Ottawa and Bromont. Various sub-centers will be established at each Olympic venue to control and coordinate the activities of the security forces assigned to specific tasks.

OPERATIONAL STRUCTURES7. Organizational Charts

- 7.1 (a) National Security Organization (Annex 2)
- (b) Quebec Operations (Annex 3)
- (c) Quebec Coordination and Operation (Annex 4)
- (d) Ontario Coordination and Operation (Annex 5)
- (e) Kingston Joint Operation (Annex 6)

8. Responsibilities

8.1 Prime responsibility for Olympic

Security at all venues rests with the police force having criminal jurisdiction. However, resource constraints on the part of some agencies required negotiation and agreement to assume security responsibilities outside of normal jurisdictions in the following areas:

- Athlete Security "In transit"
- Bromont Olympic Village
- Kingston Olympic Village
- Portsmouth Harbour (Kingston)
- Regatta Race Course (Kingston)

OPERATIONAL STRUCTURES8. Responsibilities (Cont'd..)

8.2 Many other areas of Olympic Security required the provision of assistance from different agencies. The resource allocation to these areas will be found under the specific functions. A global recap of Olympic resources will be found in Annex 7.

8.3 The security forces involved will undertake the following functional responsibilities:

RCMP

- a) VIP Security
- b) Security of Athletes "In-Transit" in the Province of Quebec
- c) Accreditation of the World Press
- d) Security screening
- e) Border Patrol
- f) Airport security
- g) Vital points protection
- h) Aerial security
- i) Security of the Regatta Race Course (Kingston)
- j) Federal law enforcement at the Olympic Village in Montreal and the Olympic Stadium.

OPERATIONAL STRUCTURES8. Responsibilities (Cont'd..)8.3 S.Q.

- a) Site security at Bromont, L'Acadie and Joliette

- b) Traffic control

PRPD (Peel Regional Police Department)

- a) Searching and securing athlete buses at Toronto International Airport

OPERATIONAL STRUCTURES8. Responsibilities (Cont'd..)8.4 Canadian Forces

8.4.1. It was recognized at the outset that the magnitudes of the tasks would be beyond the capabilities of the police agencies concerned and that C.F. support would be essential in maintaining a strong security posture.

8.4.2. At the request of the provinces concerned, the Governor in Council formally approved the employment of Canadian Forces in support of the R.C.M.P. and other federal law enforcement agencies on 1976 Olympic Games security tasks in the provinces of Quebec, Ontario, New Brunswick and through the RCMP, provide assistance to provincial and municipal police forces.

8.4.3. Documentation covering the request for and the approval of the use of C.F. personnel is included in Annex 8, 9, 10, 11, 12 and 13.

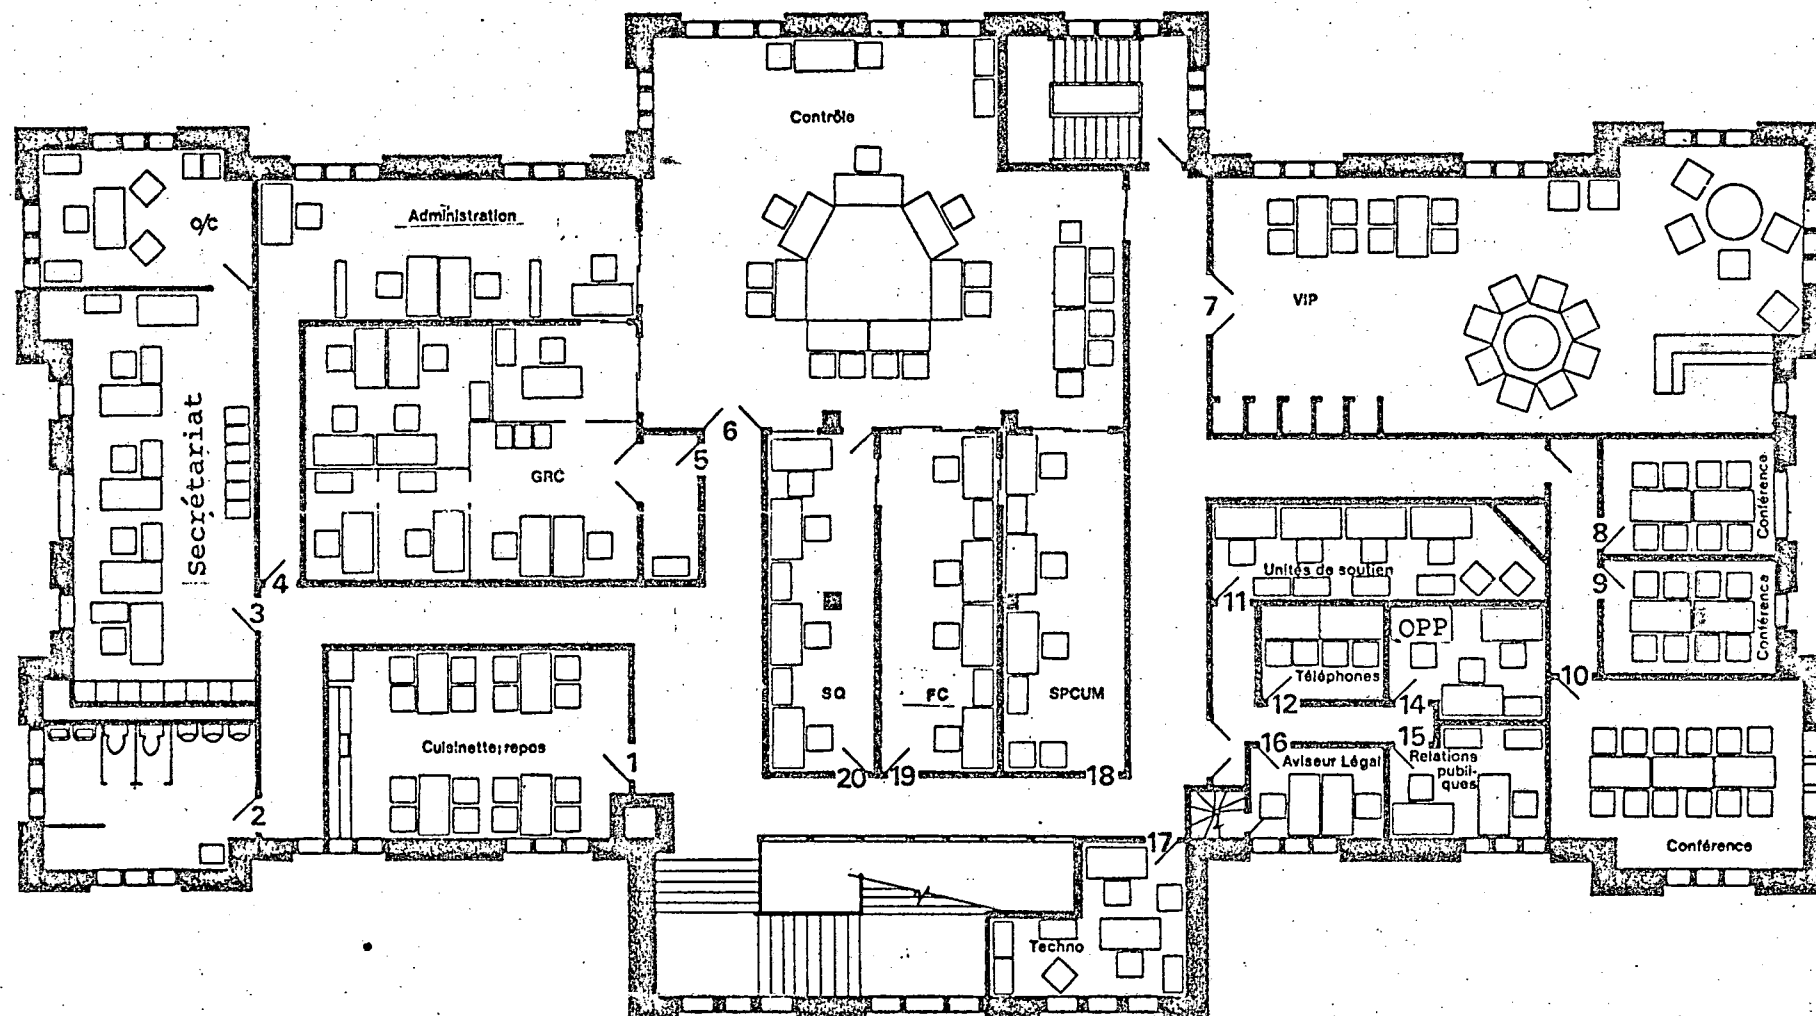

OPERATIONAL STRUCTURES8. Responsibilities (Cont'd....)

8.4.4 The extent of Canadian Forces participation in the order of 5,000 men exclusive of command and control and logistics support, in Olympic security was confirmed by the Cabinet on March 27, 1975 and conveyed to the Force by the Solicitor General of Canada by letter dated April 8, 1975 (Annex 14).

Dear Mr. Allmand:

Thank you for your letter of March 10th, 1976
regarding Olympic security.

I am at this time formally requesting armed
assistance from members of the Canadian Forces in
support of the Royal Canadian Mounted Police in the
Province of Ontario immediately before, during and
immediately after the 1976 Olympic Games.

You have my assurance that neither I nor the
Attorney General of Ontario will requisition members
of the Canadian Forces under Part XI of the National
Defence Act for matters directly or indirectly
related to the 1976 Olympic Games.

Again, I wish to thank you and your officials
for the excellent cooperation we have received in
this matter.

Yours sincerely,

SECRET

GOUVERNEMENT DU QUÉBEC
MINISTÈRE DE LA JUSTICE
CABINET DU SOLLICITEUR GÉNÉRAL

QUÉBEC, le 30 mars 1976.

L'honorable Warren Allmand,
Solliciteur général,
Gouvernement du Canada,
Hôtel du gouvernement,
Ottawa, Ontario.

Cher collègue,

Je fais suite à la correspondance que se sont échangée nos sous-ministres, relativement aux mesures de sécurité qui sont prévues pour la tenue des Jeux Olympiques de 1976 et j'ai l'honneur de vous manifester l'accord du gouvernement du Québec à la participation des Forces Armées Canadiennes au maintien de la sécurité, de la loi et de l'ordre au Québec, à cette occasion.

Nos fonctionnaires respectifs ont déjà planifié la nature des appuis que les Forces Canadiennes pourraient fournir au maintien de la sécurité, de la loi et de l'ordre relativement aux Jeux Olympiques de 1976; à cette fin, ils ont déterminé, au cours de plusieurs réunions, les ressources en matériel et personnel qui pourraient être utilisées par les Forces Armées Canadiennes pour accomplir les tâches que devraient accomplir ces Forces Armées Canadiennes dans le cadre de la planification conjointe de sécurité.

L'emploi desdites ressources, aux fins précitées, représente, à notre avis, un "devoir légitime" que les membres des Forces Canadiennes peuvent être appelés à accomplir en vertu du paragraphe 33 (1) de la Loi sur la défense nationale.

De plus, nous estimons que l'article 2 du Code criminel et l'article 22.01 (2) des ordonnances et règlements royaux des Forces Canadiennes confèrent automatiquement aux membres des Forces Canadiennes qui seraient ainsi utilisés la qualité d'"agent de la paix" aux fins du Code criminel.

000051

Des domaines spécifiques d'aide militaire ont été identifiés par les comités chargés de mettre au point le plan de sécurité des Jeux Olympiques et le partage des tâches entre les diverses forces policières et les Forces Canadiennes à l'intérieur de ces domaines a fait l'objet d'une entente de principe.

Le gouvernement du Québec accepte que dans le maintien de la sécurité, de la loi et de l'ordre au Québec à l'occasion de la tenue des Jeux Olympiques de 1976, les Forces Armées Canadiennes appuient la Gendarmerie Royale du Canada et qu'elles exécutent les tâches qui leur ont été attribuées, conformément aux plans de sécurité déjà élaborés et dans le cadre des structures déjà planifiées.

Il appert, plus spécifiquement, à la suite d'échanges entre nos fonctionnaires respectifs, que les Forces Canadiennes exécuteraient des tâches relativement au maintien de la sécurité, de la loi et de l'ordre dans les domaines suivants:

- a) Sites olympiques et sécurité du Village olympique;
- b) Sécurité des athlètes "en transit";
- c) Sécurité aux points vitaux;
- d) Sécurité aux marathons, dans la mesure où les Forces pourront être détachées des autres tâches de sécurité;
- e) Sécurité aérienne;
- f) Enlèvement d'engins explosifs;
- g) Sécurité aéroportuaire, Mirabel, Dorval et St-Hubert;
- h) Sécurité des hautes personnalités officielles;
- i) Sécurité frontalière

Il appert de plus, à la suite de ces échanges, que la Gendarmerie Royale du Canada exécuterait, en outre de ses tâches habituelles en temps normal, des tâches particulières dans les domaines suivants:

- a) Sécurité des hautes personnalités officielles;

- c) Sécurité aéroportuaire;
- d) Sécurité des athlètes "en transit";
- e) Participation dans l'accréditation de la Presse mondiale;
- f) Pré-sélection sécuritaire des employés du COJO.

De plus, je suis en mesure de vous aviser qu'à moins de circonstances bien spéciales, le gouvernement du Québec n'entend pas réquisitionner des membres des Forces Canadiennes durant la période du 1^{er} juin 1976 au 31 août 1976, en vertu de la partie XI de la Loi de la défense nationale pour des objets directement ou indirectement reliés aux Olympiques 1976, puisqu'il aurait plutôt recours, en cas de besoin, à la force policière et militaire visée par le plan de sécurité olympique.

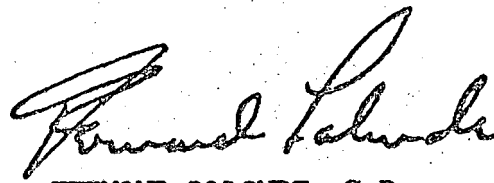

Le gouvernement du Québec n'a donc pas objection à ce que vous recommandiez au Gouverneur en conseil d'adopter un décret autorisant les membres des Forces Armées à accomplir les tâches nécessaires au maintien de la sécurité, de la loi et de l'ordre durant les Jeux Olympiques de 1976, dans le cadre des compétences déterminées pour celles-ci et les diverses autorités policières.

Vous me permettrez de vous souligner en outre que la tenue des Jeux Olympiques de 1976 déborde les cadres du Québec, non seulement sur un plan strictement géographique, car plusieurs épreuves doivent avoir lieu en Ontario, mais aussi sur le plan de la fierté qu'ont les canadiens dans leur ensemble de pouvoir accueillir des athlètes du monde entier et du devoir collectif qu'ils ont de leur assurer la meilleure sécurité possible; l'expérience des dernières années, et particulièrement celle qui a été vécue en Allemagne de l'Ouest, en 1972, démontre bien que les problèmes de sécurité des Jeux Olympiques peuvent avoir des répercussions mondiales pour un pays tout entier. En conséquence, il me semble donc normal que le gouvernement fédéral participe financièrement à la tenue d'un tel événement et qu'en matière de sécurité, il absorbe toutes les dépenses encourues par ses divers agents dans l'exécution des plans de sécurité convenus.

Je vous prie d'agréer, cher collègue, l'expression de mes meilleurs sentiments.

My dear Colleague,

Re: Olympic Security - Support of
the Royal Canadian Mounted Police
in Ontario and Quebec by the
Canadian Forces

I have now received formal requests from the Solicitor General of Quebec and the Solicitor General for Ontario for armed assistance from members of the Canadian Forces as part of the security measures to be taken for the Olympic Games.

Accordingly, I formally request that the Canadian Forces provide armed assistance in support of the Royal Canadian Mounted Police in the Provinces of Quebec and Ontario immediately before, during and immediately after the 1976 Olympic Games.

May I also suggest that we submit jointly to the Governor-in-Council, for approval, the terms and conditions governing the employment of the members of the Canadian Forces on Olympic Security duties.

Yours very truly,

Dear Colleague:

This is in response to your letter of 14 May 1976
requesting Canadian Forces assistance during the 1976 Summer
Olympics.

In accordance with Cabinet decisions of 7 June 1973
and 27 March 1975, the Canadian Forces will provide armed
assistance in support of the Royal Canadian Mounted Police
in the Provinces of Quebec, Ontario and New Brunswick in
connection with the 1976 Olympic Games.

I understand that a representative of the Judge
Advocate General will meet with officials of your Department
and of the Privy Council Office to prepare a submission to
the Governor-in-Council seeking formal approval of the
arrangements that have been made for the employment of
members of the Canadian Forces on Olympic security duties.

Sincerely,

James Richardson.

30 June, 1976

To His Excellency the Governor General in Council

The undersigned have the honour to represent:

That the decision of the Cabinet Committee on Government Operations dated 28 May, 1973, confirmed by Cabinet on 7 June, 1973, and the further decision of the Cabinet Committee on Security and Intelligence dated 20 March, 1975, confirmed by the Cabinet on 27 March, 1975, have been implemented and a strong security posture for the 1976 Olympic Games has been planned and implementation of this security posture commenced in early June, 1976, in the provinces of Quebec, Ontario and New Brunswick.

That in a letter to the Solicitor General of Canada dated 30 March, 1976, the Solicitor General of the Province of Quebec has formally requested armed assistance from the Canadian Forces in support of the Royal Canadian Mounted Police in the province of Quebec in matters dealing with the security of the 1976 Olympic Games.

That in a letter to the Solicitor General of Canada dated 15 April, 1976, the Solicitor General of Ontario has formally requested armed assistance from the Canadian Forces in support of the Royal Canadian Mounted Police in the province of Ontario in matters dealing with the security of the 1976 Olympic Games.

That the Solicitor General of Quebec and the Solicitor General of Ontario in the letters mentioned above have indicated that their governments will not requisition members of the Canadian Forces in aid of the civil power under Part XI of the National Defence Act for matters directly or indirectly related to the 1976 Olympic Games.

That members of the Canadian Forces employed on Olympic Games Security duties will provide assistance in support

of the Royal Canadian Mounted Police and through that police force in support of provincial and municipal police forces in the provinces of Quebec and Ontario, and in support of federal law enforcement agencies, namely Customs Officers and officials enforcing the Small Vessel Regulations and Boating Restriction Regulations in the provinces of Quebec, Ontario and New Brunswick.

The undersigned, therefore, recommend that Your Excellency in Council formally approve the arrangements that have been made for the employment of members of the Canadian Forces in direct and indirect support of the Royal Canadian Mounted Police on 1976 Olympic Games Security duties in the provinces of Quebec, Ontario and New Brunswick and in support of officials enforcing the Small Vessel Regulations and Boating Restriction Regulations in the provinces of Quebec and Ontario in connection with the 1976 Olympic Games. A suggested draft order is attached.

Respectfully submitted,

Ottawa, Ontario.

Dear Mr. Nadon:

Olympic Games, 1976 - Security Planning

This is to inform you that Cabinet confirmed on March 27, 1975, the decisions made by the Cabinet Committee on Security and Intelligence on March 20, 1975, to the following effect:

- (a) the strong security posture adopted by the Cabinet on June 1, 1973, should be reaffirmed;
- (b) the Solicitor General should report to Cabinet in about six months on the progress towards the implementation of the security posture agreed upon, with special reference to the command and control of the police security operations during the Olympics, and required security contingency plans and the sharing of responsibility for their implementation among federal, provincial and municipal authorities;
- (c) the following measures for the implementation of (a) above be approved, subject to further discussion and agreement between the Solicitor General and the President of the Treasury Board:
 - (i) provision of federal manpower resources for the security plan in the order of 1,300 men from the RCM Police and 5,000 men from DND (exclusive of command and control structures and logistic support),
 - (ii) an increase in RCM Police Olympic expenditures in the amount of \$6,609,400 (for a total of approximately \$23 million for the four-year period 1973-74 to 1976/77 inclusive) subject to the availability of funds as determined by the Treasury Board;

- (d) Treasury Board examine the various means available for recovery of all DND incremental costs pertaining to the Olympics resulting from planned federal fulfilment of recognized provincial and municipal security responsibilities;
- (e) the Secretariat of the Interdepartmental Committee on the Olympics (located in the Treasury Board Secretariat) review at the official level all Cabinet memoranda relating to the Olympics, which affect more than one department, prior to Ministerial consideration through the normal or expanded Committee process;
- (f) the terms of reference of the Ad Hoc Committee of Ministers on Olympic Security agreed to by Cabinet on June 1, 1973, be extended to include the consideration of any problems that arise or may be anticipated in relation to the 1976 Olympics which could involve significant policy problems at the political level.

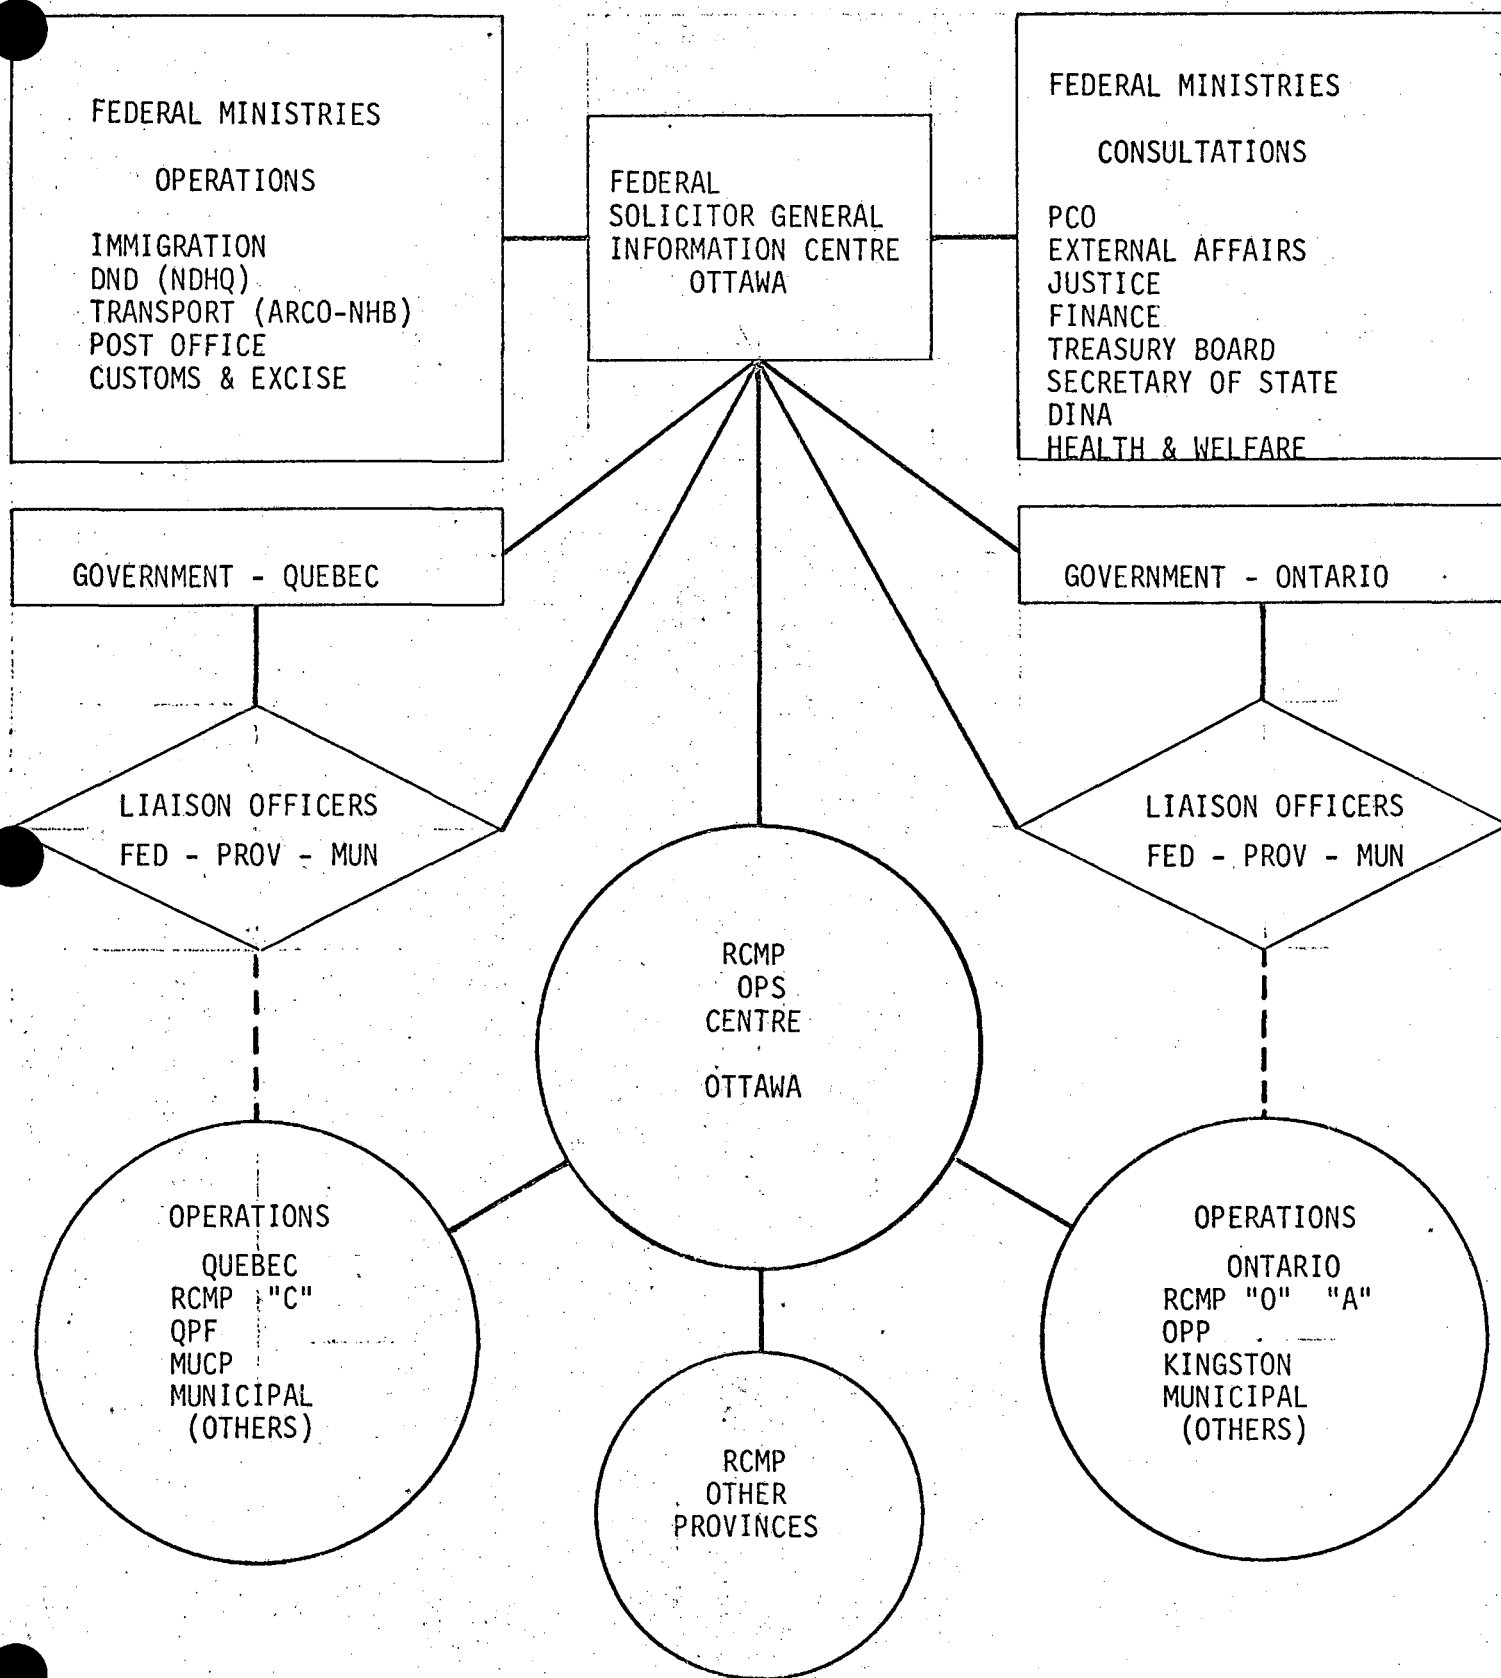

Yours sincerely,

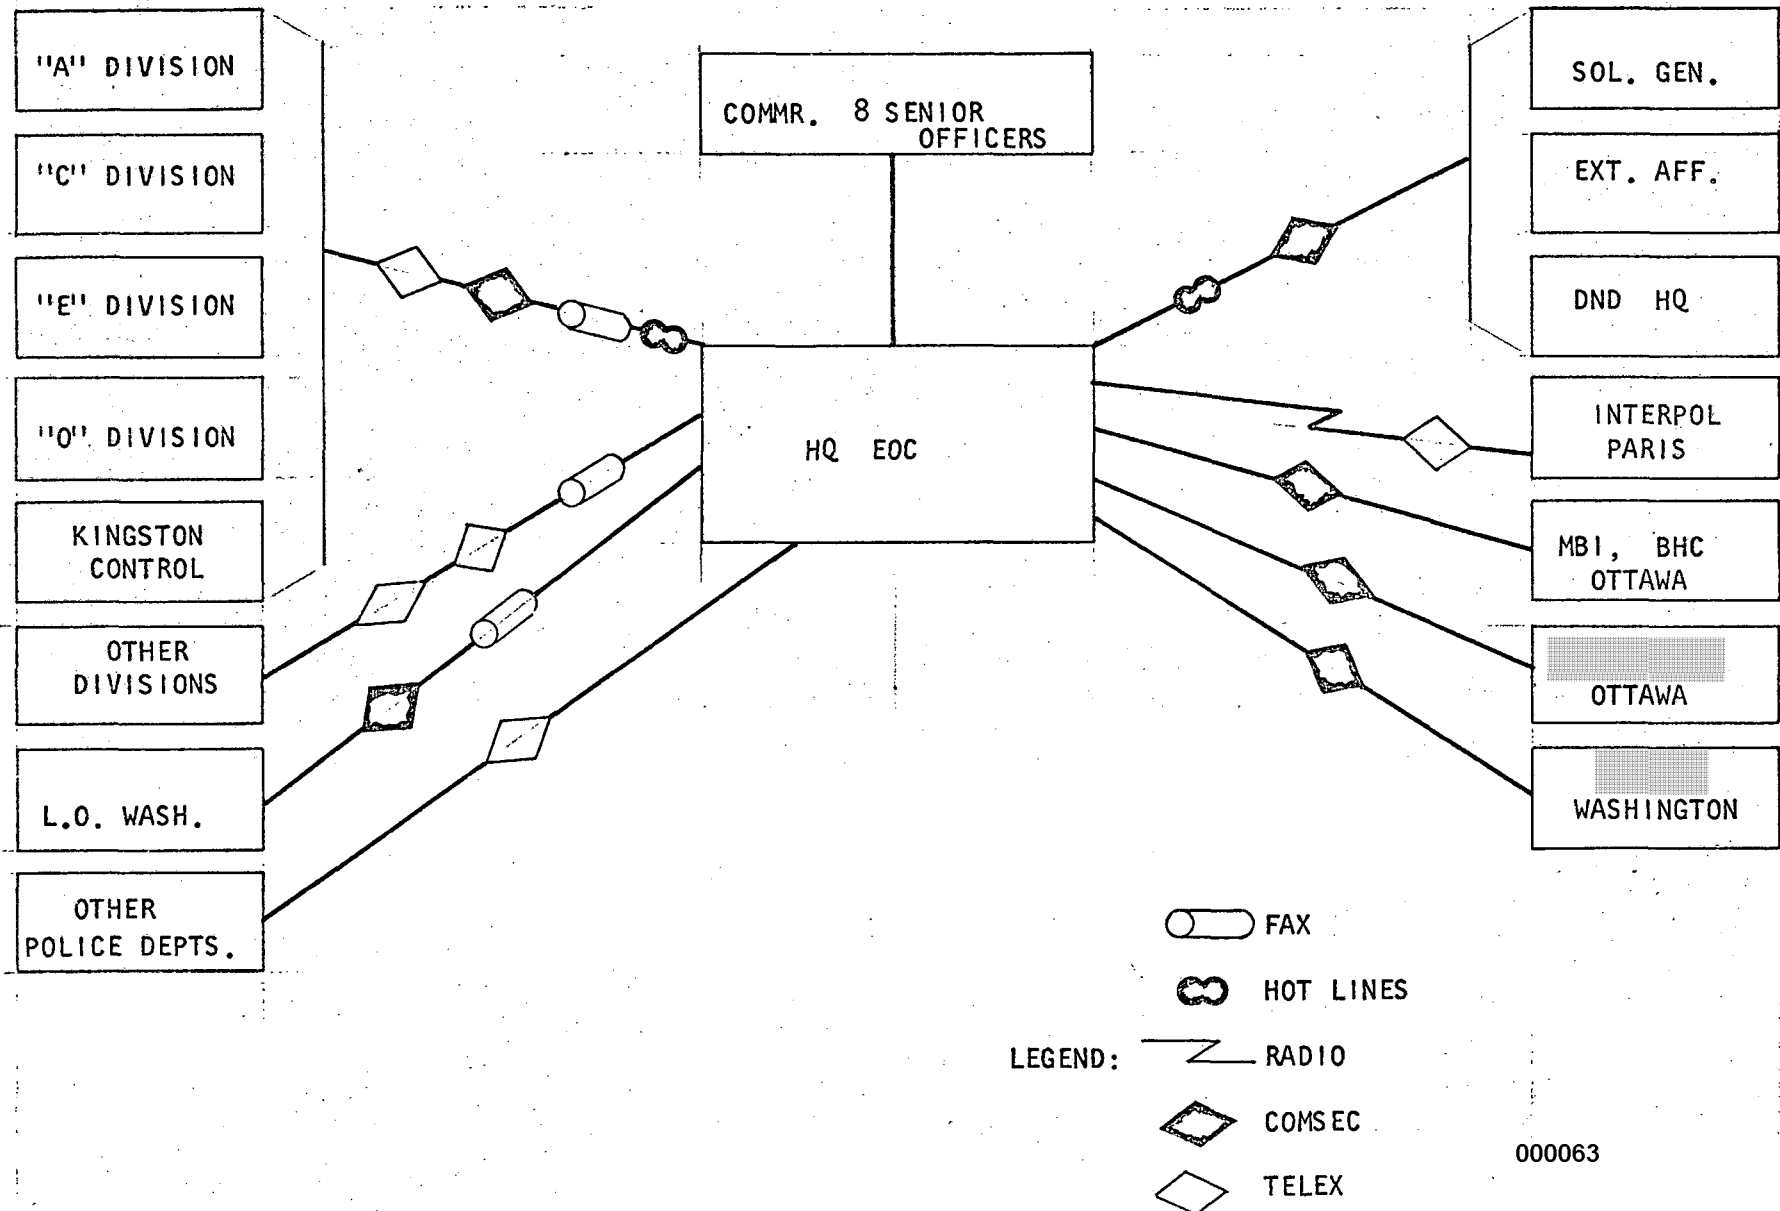

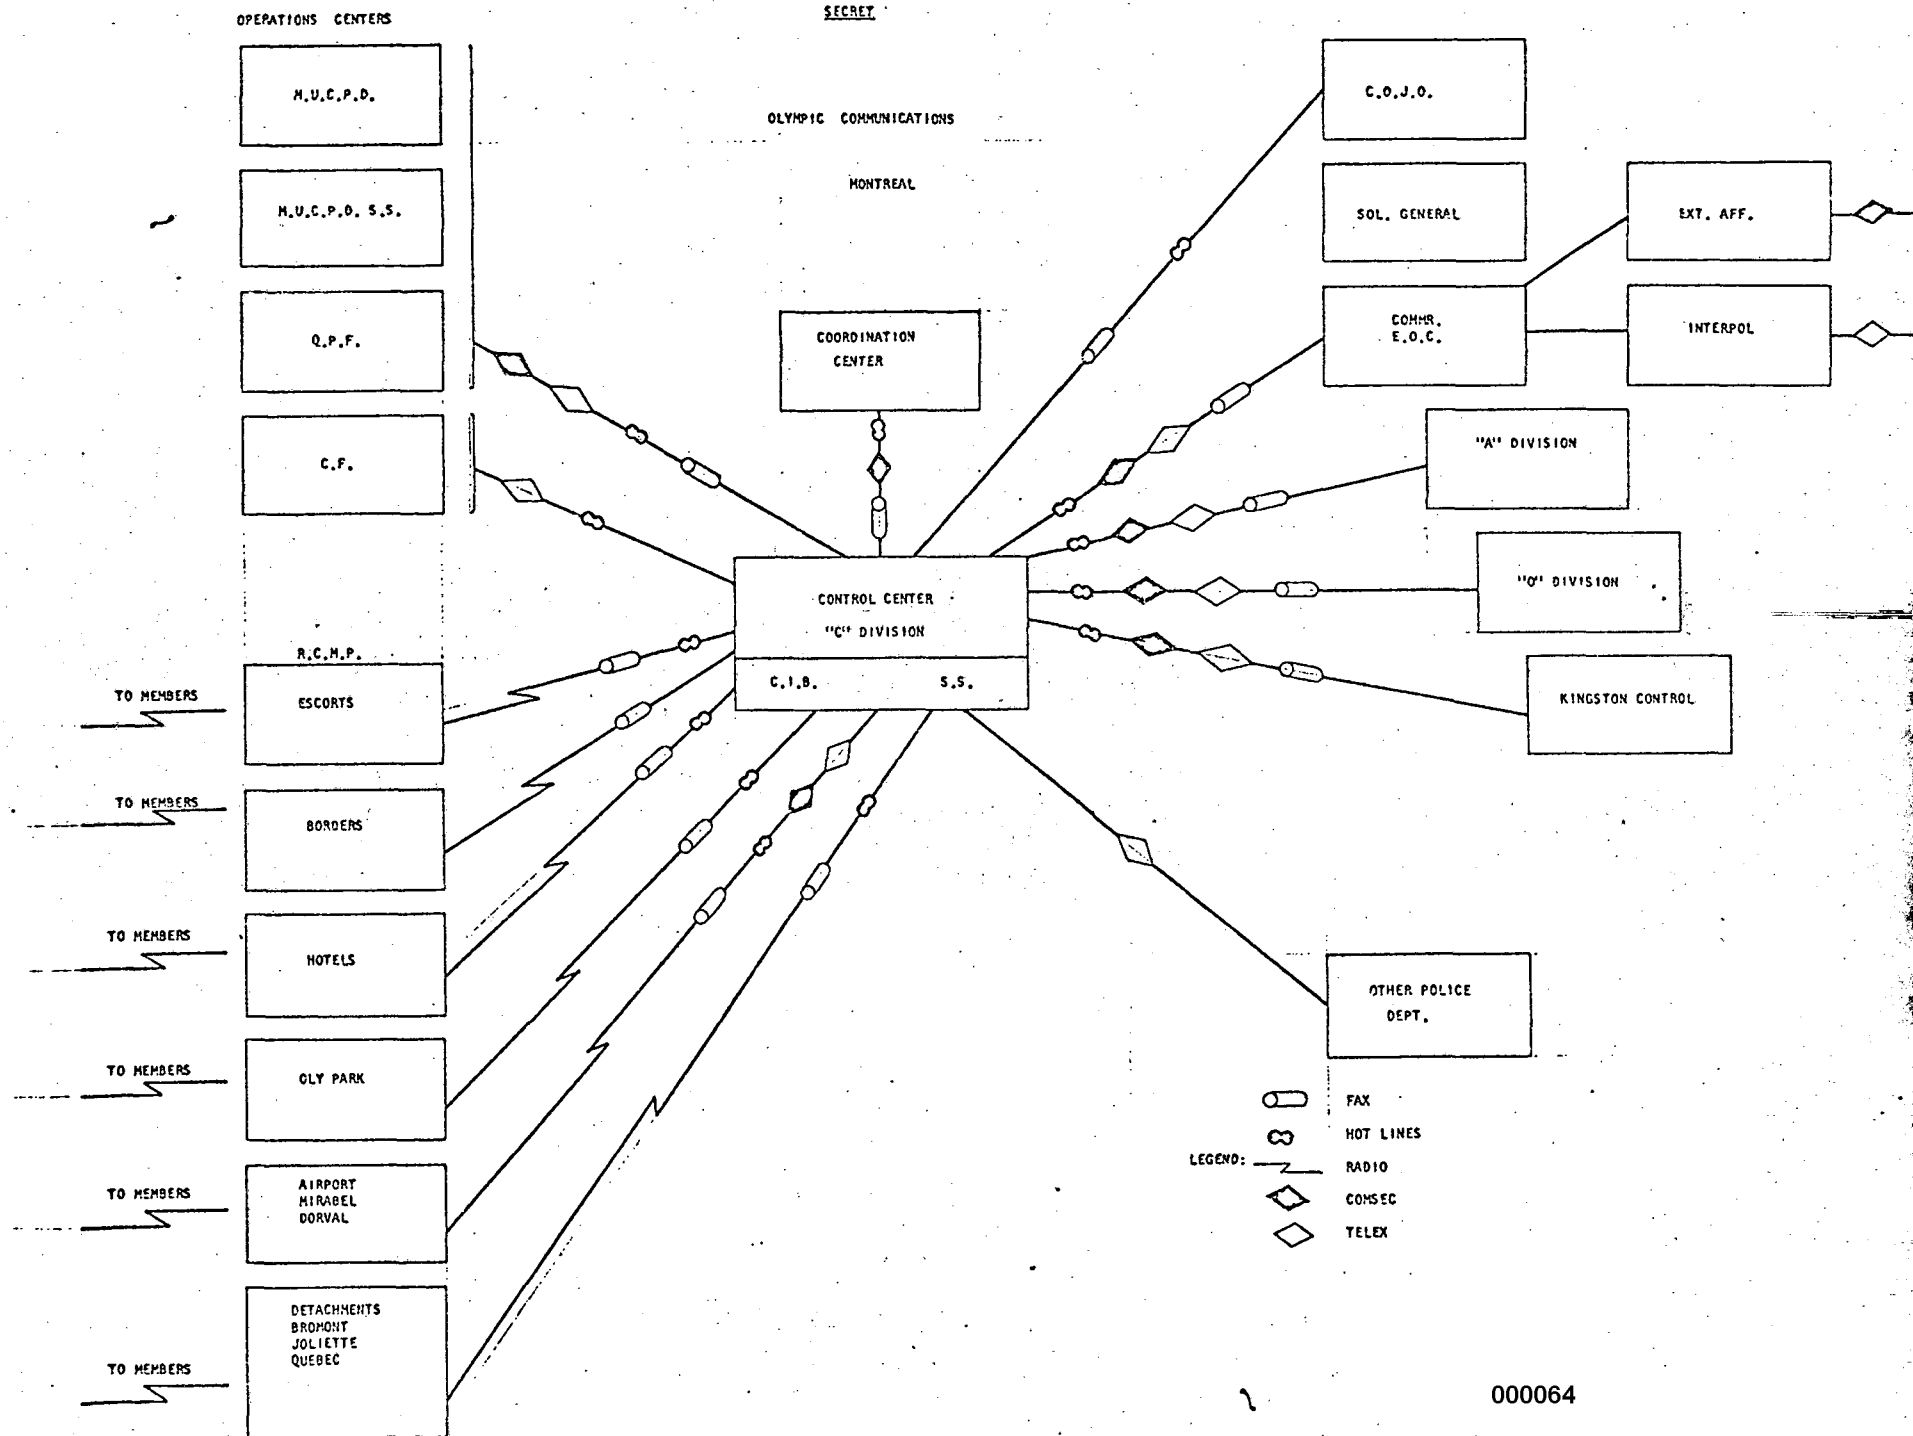

Roger Tassé,

ACCREDITATION

PART A-OLYMPIC PARTICIPANTS

ACCREDITATION - OLYMPIC PARTICIPANTS1. Definition

- 1.1 It is the process that will identify all individuals who will participate in the 1976 Summer Olympic Games (competitors and officials including support groups). It will also identify the access and privileges allowed these participants in and around the Olympic venue.

ACCREDITATION - OLYMPIC PARTICIPANTS2. Policy

- 2.1 In conformity with established Olympic practice, COJO will issue, with the approval of the Government of Canada, an Identity Card to the Olympic participants in order to simplify the process required for their entering and leaving Canada.

NOTE: This privilege does not apply to the World Press, Special Guests nor the Youth Camp Participants.

- 2.2 In addition to the above, and in accordance with Article 48 of IOC Rules and Regulations and the IOC Recommendations for organizers of the Olympic Games, these Identity Cards, once validated, will give participants access to those Olympic venues, they require to perform their tasks.

2.3 References

- 2.3.1 COJO Book of instructions on "Identity Cards for the participants in the Games of the XXI Olympiad - Montreal, 1976" on file HQY-465-80.

ACCREDITATION - OLYMPIC PARTICIPANTS3. The Identity Document

3.1 The Identity Card for Olympic participants was designed by the Canadian Banknote Company in conjunction with security officials.

3.2 In addition to carrying the photograph and descriptive data of the intended recipient the identity card will also have a number of distinctive security features built into it, including the following:

- i) Canadian Bank Note safety paper similar to the paper used for our currency;
- ii) Use of a steel engraving process;
- iii) A latent Maple Leaf image visible only when viewed at a 45° angle;
- iv) Concealed random fluorescent tints visible only under ultra-violet or black light;
- v) Chemical treatment of the paper to produce a fixed reaction when tested.

ACCREDITATION - OLYMPIC PARTICIPANTS3. Concept of Operations

3.1 COJO will provide the IOC and the respective NOCs and ISFs with Identity Cards in the numbers requested.

3.2 The IOC, NOC and ISF shall complete the entries therein and deliver them to the eligible recipients. The completed cards must include the signature of the appropriate committee or Federation official.

3.3 The IOC, each NOC and each ISF shall mail a list of names of persons to whom Identity Cards have been issued to COJO, to be received in Montreal at least two weeks prior to entry into Canada of any person whose name appears on the list. These lists shall show the card number, status, name and sex of the card bearer, date and place of birth, and the expected date and port of arrival in Canada.

ACCREDITATION - OLYMPIC PARTICIPANTS3. Concept of Operations (Cont'd..)

3.4 At the same time as this list is mailed to the Organizing Committee, another copy must be delivered to an appropriate Canadian Government office. The location of the office and the name of the Canadian Officer responsible for lists originating in a particular country, are included in a letter accompanying an instruction booklet forwarded to each country.

3.5 Any additions, deletions or changes to the list of Identity Card holders which become necessary after such list has been mailed, must be reported to the Canadian Government officer referred to in the covering letter, ten days prior to arrival in Canada of any such person. This Canadian officer will telex the additions, deletions, or changes to the Organizing Committee in Montreal, via Canadian Government facilities. Failure to forward these lists and/or changes as specified above will result in the Identity Card not being accepted as a travel document by the Government of Canada.

ACCREDITATION - OLYMPIC PARTICIPANTS3. Concept of Operations (Cont'd...)

- 3.6 The Department of Manpower and Immigration will use the initial list and any amendments to check against their Lookout System. A negative list is sent to Ports of Entry, positive lists are sent to their office in Ottawa for appropriate action.
- 3.7 Identity Card holders arrive in Canada and clear Health, Immigration and Customs procedures.
- 3.8 The bearer of the Identity Card, immediately upon his or her entry into Canada, must at the place appointed by the Organizing Committee have his or her card completed (validated).
- 3.9 The above completion will confirm the bearers eligibility and establish whether he or she is properly entered in the Olympic Games or comes within the limits in number of officials authorized under the provision of Article 40 of the International Olympic Committee

ACCREDITATION - OLYMPIC PARTICIPANTS

3. Concept of Operations (Cont'd..)

3.9 ..Rules and Regulations. The Identity Cards will be inspected by the Organizing Committee at designated centers and verified with the list of persons described in Article 9.

3.10 After the Identity Card has been validated by the Organizing Committee, it will become the Olympic pass which, together with a lapel badge, will admit the bearer to the Olympic venues and sites that he or she is entitled to enter.

3.11 Security personnel duties will consist of:

3.11.1 In conjunction with COJO personnel, establish the validity of the Olympic passport according to the official lists.

ACCREDITATION - OLYMPIC PARTICIPANTS3. Concept of Operations (Cont'd..)

3.11.2 Check if the back of the Olympic passport has been stamped by Immigration; otherwise, refer the bearer to an Immigration officer.

3.11.3 In conjunction with COJO personnel, ensure the photograph and personal history on the Olympic passport corresponds to the bearer.

3.11.4 In case of error, or improper completion, cancel the document and have a new one prepared in liaison with Immigration and in compliance with the established procedure. The cancelled document shall be kept by Security.

3.11.5 Recover the control document of the Olympic passport and file it.

3.11.6 Supervise the other operations such as the affixing of the validating seal and of the eyelets, etc.

PART B-WORLD PRESS

ACCREDITATION - WORLD PRESS1. Definition

- 1.1 It is the process that will identify all individuals of the World Press (written or electronic) who will cover the 1976 Summer Games. It will also identify the access and privileges allowed each member in and around Olympic venues.

ACCREDITATION - WORLD PRESS2. Policy

2.1 In accordance with articles 48 of IOC Rules and Regulations and IOC Recommendations for organizers of the Olympic Games, COJO will issue identity cards to members of the World Press who will cover the Olympic Games. Once validated, it will give them access to those areas of the 1976 Olympics which has been assigned to them to efficiently perform their task.

2.2 Since the news media will enjoy close access to VIPs, the RCMP in conjunction with COJO, accepted on 19 March 1974, responsibility to participate in the accreditation process. Their involvement will include security screening for all involved, assisting in the design and development of a secure identity card and also assisting in the issue and validation process.

ACCREDITATION - WORLD PRESS3. The Identity Document

- 3.1 The official identity card to be issued to members of the news media has been designed by the Canadian Banknote Company in consultation with security officials. It has all the same security features of the identity card issued to participants.

ACCREDITATION - WORLD PRESS4. Concept of Operations

- 4.1 COJO Press Services will receive applications through the various NOCs and ISFs. It will be their responsibility to verify eligibility, proper endorsements by the sponsoring NOC or ISF and also that applications fall within the prescribed quota of 7,200. Once these criteria are satisfied, the applications are forwarded to the RCMP.
- 4.2 The RCMP will security screen the applicant and, if accepted, will complete both the Preliminary and Official Press I.D. Cards. The Preliminary Card will be forwarded to COJO and the Official Card will remain in the custody of the RCMP until issued to the applicant following presentation of the Preliminary Card at an accreditation center.

ACCREDITATION - WORLD PRESS4. Concept of Operations (Cont'd..)

4.3 COJO Press Services will forward the completed Preliminary Cards to the applicants through the respective NOC or ISF.

4.4 At the accreditation center, Security personnel will:

- a) Recover the Preliminary identity card from the applicant and verify the photograph is that of the bearer;
- b) Supervise the issue of the official accreditation card;
- c) In case of error, or questionable identities, cancel the original official accreditation card and reissue a new card in compliance with the established procedure;
- d) Supervise the other Press Accreditation operations as specified by the COJO Press Services Bureau.

ACCREDITATION - COJO EMPLOYEES1. Definition

- 1.1 It is the process that will be used to identify all COJO employees, employees of private concerns supplying services or supplies to COJO, employees of the City of Montreal and members of Olympic security forces who will require access to Olympic sites. Each identity card issued through the process will also identify the rights and privileges allowed the bearer.

ACCREDITATION - COJO EMPLOYEES2. Policy

- 2.1 All employees will require an employee ID card to perform his/her assigned tasks within any Olympic venue.

ACCREDITATION - COJO EMPLOYEES3. The Identity Document

3.1 The identity cards for all COJO employees, including the security forces, were designed by the Canadian Banknote Company in consultation with security officials.

3.2 This document has the common security factors of banknote paper, steel engraving and latent image enjoyed by the other identity cards. In addition, all employee cards with the exception of those issued to security forces have another unique security feature. The photograph of the bearer is an integrated part of the document itself, not just attached.

3.3 The cards issued to security forces do not have any photograph as they are designed to be used only with regular identification cards issued to all members of the security forces.

ACCREDITATION' - COJO EMPLOYEES

4. Concept of Operations

- 4.1 All individuals to be accredited, except for members of a recognized Police Force and members of the Canadian Forces, will complete and submit a COJO "Offer of Employment" form PER 002(07-75).
- 4.2 Security screening will be conducted on each form PER 002 (07-75).
- 4.3 COJO decides to accept or reject applicant.
- 4.4 If accepted, Employee Card is completed with special equipment then given to the Director of Service concerned until issued to incumbent when he/she reports for duties.
- 4.5 Special ID cards will be provided by COJO to each security force involved in Olympic Security. It will be the responsibility of each force to complete and issue appropriate members with the cards. This ID card along with members own ID card, will provide him/her access to Olympic sites.

ACCREDITATION - COJO EMPLOYEES4. Concept of Operations (Cont'd..)

4.6 Apart from the issue of their own identity cards, security personnel duties on employees accreditation will include:

- a) Exercise quality control on all identity cards issued. If the photograph is inadequate or the information incorrect, security will be responsible to have the card rejected.
- b) Keep the rejected cards.
- c) Make a list of the persons for whom cards have been issued to make sure that they have been subjected to security screening.
- d) As required and upon request from COJO personnel certify identity documents and check the accuracy of information contained therein.
- e) Ascertain that the applicant's photographs are classified in their individual files.

CHAPTER 5

AIR SECURITY

AIR SECURITY1. Aim

The aim of this paper is to provide policy guidelines for security forces for the enforcement of air security during the 1976 Summer Olympics.

2. Definitions

Definitions of terms used through this paper are as follows:

a) Security Forces

The members of Federal, Provincial, Municipal Police Forces, and the Canadian Forces who have a direct involvement in security plans for the 1976 Summer Olympics.

b) Positive Control Zone (PCZ)

An airspace of defined dimensions extending upwards vertically from the surface of the earth within which the requirements of Air Navigation Order Series V, No. 21, "Positive Control Zone Order" apply.

AIR SECURITY2. Definitions (Cont'd..)c) Restricted Airspace

An airspace of defined dimensions above the land areas or territorial waters within which the flight of aircraft is restricted in accordance with certain specified conditions.

3. Background

In the development of security plans for the 1976 Summer Olympics, the requirement for security at Olympic sites from possible threats from the air was identified.

AIR SECURITY3. Background (Cont'd..)

3.2 The provision of air security for the 1976 Summer Olympics includes:

- a) airspace control measures involving the identification, establishment, and notification of PCZ's and restricted airspace over designated areas;
- b) Procedures by which these control measures can be enforced including the ability to identify and maintain surveillance over unauthorized aerial intruders in these areas; and,
- c) The procedures by which an unauthorized aerial intruder, suspected of or identified as having hostile intentions, may be prevented from accomplishing an act prejudicial to the security of the Summer Olympics.

AIR SECURITY3. Background (Cont'd..)

- 3.3 Air security procedures to ensure the above, including the use of force, will be restrictive in nature and will be developed in the context of improved responsiveness to existing procedures supplemented where necessary by measures germane to the Olympic Security Plans.

4. Airspace Control

- 4.1 The majority of Olympic sites are within existing PCZs; however, the Security Forces have identified the requirement to modify existing PCZs or establish PCZs to cover other designated sites. In addition, the Security Forces have identified and may identify in the future, at short notice, the requirement for the establishment of Restricted Airspace over specified sites during the Olympic period and at other specified periods.

AIR SECURITY5. Enforcement Procedures

5.1 Enforcement procedures range from the normal air traffic control procedures inherent in airspace control, as above, to, in the worst case, the use of force to neutralize a perceived aerial threat. Procedures will be developed as necessary and promulgated to responsible agencies and elements of the Security Forces to allow for the following levels of enforcement:

- a) Normal Enforcement
- b) Medium Enforcement
- c) Maximum Enforcement

5.1.1 Normal Enforcement

The Ministry of Transport and the Royal Canadian Mounted Police will carry out their normal responsibilities with respect to the enforcement of Air Regulations. Assistance of other elements of the Security Forces will be provided as necessary.

AIR SECURITY5. Enforcement Procedures

5.1

5.1.2 Medium Enforcement

Normal Enforcement procedures will be carried out, enhanced by the provision of a physical presence in the air by the Security Forces for investigation and identification purposes. The physical presence will be accomplished by either continuous air surveillance over specific sites during specific periods or by the availability of Security Forces' aircraft on-call for this purpose provided these aircraft comply with the rules of the air and the instructions of the Air Traffic Service.

AIR SECURITY5. Enforcement Procedures

5.1

5.1.3 Maximum Enforcement

Maximum Enforcement procedures will only be invoked when the possibility of an aerial threat has been identified through analysis of intelligence by the Security Forces. Maximum Enforcement procedures will include:

- a) Immediate notification of the threat to the applicable Security Coordinator in Montreal or Kingston who will immediately notify the applicable Provincial Government representative, and the applicable Security Forces;

AIR SECURITY5. Enforcement Procedures (Cont'd..)

5.1

5.1.3 Maximum Enforcement

b) the normal and medium enforcement procedures alerted to the possible threat; and

c) may include the use of force with the following special procedures:

1. The use of force will only be contemplated if "hard intelligence" indicates an aerial threat exists;
2. the use of force is not envisaged as a requirement for the enforcement of the Air Regulations but for the enforcement of the Criminal Code;

AIR SECURITY

5. Enforcement Procedures (Cont'd..)

5.1

5.1.3 Maximum Enforcement

3. the use of force with federal resources will be as authorized by the Solicitor General of Canada;
4. communications will be immediately established and maintained between government representatives, the security coordinator in Montreal or Kingston, and the Commander of the element of the Security Forces tasked with the provision of intercept aircraft;

AIR SECURITY5. Enforcement Procedures (Cont'd..)

5.1

5.1.3 Maximum Enforcement

5. when time permits, Security Forces aircraft will redeploy to predesignated response areas and maintain constant readiness to respond to an order to undertake the use of force; if the threat analysis so warrants, the redeployment may be effected concurrent with Paragraph 5.1.3 a);
6. if the threat analysis so warrants, high risk targets will be removed from sites;
7. upon authorization from the Solicitor General of Canada, the Security Forces will be prepared to employ intercept aircraft to forcefully prevent the commission of a serious offence or to apprehend a person who has

AIR SECURITY5. Enforcement Procedures (Cont'd..)

5.1

5.1.3 Maximum Enforcement

7.committed a serious offence
or who on reasonable and
probable grounds is believed
to have committed or is about to
commit a serious offence or who
is committing a serious offence.

6. Applicable Regulations

6.1 Operations carried out under Normal
and Medium levels of enforcement will be
governed by the provisions of the Air
Regulations and Aeronautics Act, the
enforcement of which is the responsibility
of the Ministry of Transport and the Royal
Canadian Mounted Police.

AIR SECURITY6. Applicable Regulations

6.2 Provisions are made in the Regulations whereby, the Security Forces, in their capacity as "peace officers", are empowered to enforce specific articles, such as:

6.2.1 "803(1) The pilot-in-command of an aircraft who is given a signal to land, in a form prescribed by the Minister, or given any instruction to land shall, subject to any direction given by any air traffic control unit, forthwith land the aircraft in accordance with the signal or instruction."

(2) For the purpose of subsection (1), a signal or instruction to land may be given by a peace officer, an officer of Customs or Immigration, an officer of the Canadian Armed Forces acting within the scope of his duty or any person thereto authorized by the Minister.

AIRPORT SECURITY

AIRPORT SECURITY1. Definition of Function

- 1.1 To supplement existing airport security measures at designated airports on a 24-hour basis during the Olympic period to further ensure the safety of VIPs, athletes and other members of the public using these facilities.

AIRPORT SECURITY2. Policy

- 2.1 Existing policies, procedures and responsibilities established with the Ministry of Transport for the application of Airport Security will apply in accordance with a memorandum of agreement (MOT/RCMP) dated 8 December 1975.
- 2.2 Priority attention will be given to those airports receiving the bulk of Olympic traffic.
- 2.3 Supplementary security, be it technical, hardware, structural design or manpower, will be based on the evaluation of recommendations contained in security surveys.
- 2.4 As agreed with the Ministry of Transport, Canadian Forces personnel augmenting security at airports will be assigned to tasks away from the public areas as much as possible, and supervised by experienced RCMP personnel.

AIRPORT SECURITY2. Policy (Cont'd..)

2.5 Recent acts of terrorism world-wide which, in one form or another become associated with airports and/or aircraft, call for manpower to act quickly in containing and stabilizing a terrorist act at major airports.

2.6 Other airports in Canada, including Ottawa and Vancouver will receive special attention and security will be increased on an as required basis in line with local conditions and security survey recommendations.

AIRPORT SECURITY3. Concept of Operations

- 3.1 Canadian airports were assessed in the light of their involvement specifically for the Summer Olympics in 1976 and the following airports, because of either their location relative to the Olympic events, or their volume of traffic to be generated by the Olympics, fell into a special category requiring priority for allocation of RCMP and Canadian Forces Olympic Security resources:

Montreal International Airport (Dorval)
Montreal International Airport (Mirabel)
Toronto International Airport
Vancouver International Airport
Ottawa International Airport
St. Hubert Airport, Montreal
Kingston Municipal Airport

- 3.2 Within the priorities and considering overall Olympic demands, manpower will be designated to augment security at Dorval, Mirabel and Toronto International Airports where the bulk of Olympic traffic is

AIRPORT SECURITY3. Concept of Operations (Cont'd..)

3.2 ...anticipated; additionally St. Hubert and Kingston Municipal Airport will receive some dedicated resources.

3.3 Added manpower will come from R.C.M.P. and Canadian Forces personnel.

3.4 Canadian Forces personnel will be assigned to all tasks "airside" normally performed by the R.C.M.P. Airport Policing Branch. Such tasks include but are not restricted to manning some or all guardhouses, airport perimeter patrols, guarding of vital installations, airport parking lot patrols and aircraft and cargo area security. Supervision will be provided by an experienced RCMP Airport Policing Branch member.

AIRPORT SECURITY3. Concept of Operations (Cont'd..)

3.5 R.C.M.P. personnel will be assigned to security tasks in the "public area", where security members will have contact with the travelling public. Posts will be located and manned in such areas as arrival and departure lounges, baggage clearance and throughout the terminals.

3.6 Quick reaction stand-by Canadian Forces personnel will be provided from within C.F. resources tasked to Mirabel and Dorval Airports for stabilization and containment requirements in the event of a terrorist attack. Contingency planning will provide for a reaction capability at Toronto and Ottawa International Airports.

AIRPORT SECURITY3. Concept of Operations (Cont'd..)

3.7 Other divisions within whose area major airports are situated will monitor local conditions and based on the passage of Olympic participants, visitors and VIPs will augment security as required.

3.8 Security surveys, in addition to manpower, identified; hardware, technical and structural improvements which MOT will rectify, in line with agreed priorities and availability of funds.

3.9 Canadian Forces will provide helicopter support on an as required basis for airport and approach surveillance or security.

5.2 Tasking authority for R.C.M.P. personnel, existing RCMP/MOT memorandum of Agreement. Agreement to allow redeployment of R.C.M.P. personnel within sites concerned reached at meeting of 6 January 1976.

5.3 Specific deployment as detailed in Annex A to G.

5.4 Cabinet document # 103-75.

5.5 Letter of Chief Defence Staff dated September 12, 1975.

AIRPORT SECURITY6. Command and Control

6.1 Command and control structures normally in effect for R.C.M.P. personnel will apply for Olympic Airport security.

6.2 Where Canadian Forces assistance is provided, operational instructions from the Airport Manager will be channelled to C.F. through the local R.C.M.P. Commander. C.F. personnel answer to their respective military officers and will not receive direct orders from either the R.C.M.P. or airport managers.

CHAPTER 7

ATHLETE SECURITY

ATHLETE SECURITY1. Definition of Function

- 1.1 In view of the Munich incident, in 1972 and other terrorist actions around the world where hostages have been taken for various criminal and politically motivated reasons it is essential that personal protection be afforded to athletes and team officials of the XXI Olympiad, while in Canada during the Official period of the Games.

ATHLETE SECURITY2. Policy

2.1 Through agreement of the various security forces, protection afforded various athlete delegations will, to the extent possible, be of a uniform nature at all venues in each jurisdiction and conform to the agreed concept of operations in the "Security Corridor" as approved by the Committee of Directors on 16 February 1976.

2.2 The level of protection afforded athletes will be determined by the security forces based on evaluation of the threat.

2.3 Protection to athletes participating in activities or social functions outside of Olympic training or competition will not be undertaken without the approval of the joint forces Coordination Center (CCSJO) which on advice of the various operational centers, must consider overall availability of manpower and priorities.

ATHLETE SECURITY2. Policy (Cont'd...)

- 2.4 Those athletes arriving in Canada prior to the Olympic period, or living outside of approved Olympic accommodation during the Games, will be the responsibility of the police force having criminal jurisdiction and will, unless otherwise agreed by the force concerned, receive that degree of protection which is afforded all citizens of Canada.

ATHLETE SECURITY

3. Concept of Operations

3.1 Security of athletes is the responsibility of the police force having prime criminal jurisdiction.

3.2 This line of responsibility is being followed in all jurisdictions with the exception of:

3.2.1 Bromont where the Q.P.F. have assumed the full responsibility of athlete protection on behalf of the Bromont Police Force.

3.2.2 In the province of Quebec and at the request of the MUCP and QPF the RCMP with the assistance of the Canadian Forces accepted the responsibility of athlete protection "Intransit". The bulk of the manpower is being provided for this task by the Canadian Forces.

ATHLETE SECURITY3. Concept of Operations (Cont'd..)

3.3 To ensure uniformity in athlete protection within the various police jurisdictions a concept of operations "Security Corridor" was developed by a joint forces committee.

3.4 The "security corridor" is briefly defined as "Restrictive and conditional security process granted to an athlete from his arrival in Canadian territory via an airport or a border, during his stay at the Olympic Villages, his appearances at training or competition sites and his movements between said places, up to and including his departure."

3.5 Degrees of security are defined in the "security corridor", minimum allocation of resources detailed and task sharing agreements spelled out.

3.6 The "security corridor" provides a basic security for all athletes and comprises four main divisions: transport, villages, training sites and competition sites.

ATHLETE SECURITY

3. Concept of Operations (Cont'd..)

3.7 Transport

- 3.7.1 a) all bus and mini-bus drivers assigned to the transport of athletes along all the security corridor routes shall previously undergo security screening and be duly accredited;
- b) all buses, mini buses or others assigned to the transport of athletes within the security corridor shall be searched by the police or military force supplying the escort before the athletes get aboard;
- c) two guards (police or military personnel) will be assigned aboard each bus or mini-bus during the whole ride;
- d) when the bus or mini-bus is escorted by a patrol car, either police or military, the number of guards aboard the bus or mini-bus may be reduced to one;

ATHLETE SECURITY3. Concept of Operations (Cont'd..)3.7 Transport

- 3.7.1 e) each bus or mini-bus shall be equipped with a radio-communication system (police or military frequency);
- f) police assistance, i.e. patrol cars to lead the way to athletes transport, will be required from the various security forces on the roads on certain occasions, and in the cities. A liaison system will be implemented by the R.C.M.P. for this purpose;
- g) for the villages, sites and borders, a specific place or time will be set for the relief of athletes protection by the other police force;
- h) for all routes identified by COJO/TRANSPORT, an alternate route shall, if possible, be determined in advance by the police force responsible within the security corridor;

ATHLETE SECURITY3. Concept of Operations (Cont'd...)3.7 Transport

- 3.7.1 i) the athletes transport system will be used exclusively by athletes and persons accompanying them, in short, by those who are duly accredited to that effect;
- j) access to this system will be controlled by the bus or mini-bus driver at the platforms (with the help of a bus company inspector, if available); all this in conjunction with the police or military escorts which will take action if necessary when an intruder persists in ignoring orders.

3.8 Olympic Villages

- 3.8.1 Appropriate police and/or military presence as established for each village and approved by the Committee of Directors.

ATHLETE SECURITY3. Concept of Operations (Cont'd..)3.9 Training Sites

- 3.9.1 a) appropriate perimeter police and/or military presence, twenty-four hours a day, if the site is known beforehand and if the public is not admitted;
- b) in case the public is admitted, the security standards for competition sites shall apply.

3.10 Competition Sites

- 3.10.1 a) appropriate police and/or military presence at the points of arrival and departure of the athletes, in the warm-up areas, service areas, in the section reserved for onlooking athletes, in the perimeter of the competition area and in the connecting passages.

ATHLETE SECURITY3. Concept of Operations (Cont'd..)3.11 General Security Measures

- 3.11.1 Obvious security measures will be implemented in the security corridor unless otherwise required by circumstances.
- 3.11.2 The entrance will be the same for competing and onlooking athletes at the competition sites.
- 3.11.3 All athletes will receive the basic minimum security. Tightening of this security can be requested by the Coordination Center, depending on the threat evaluation under normal conditions. In case of an emergency at a Village, site or in-transit the commander responsible for a duty or a designated representative, can immediately increase the security by notifying the Coordination Center.

ATHLETE SECURITY3. Concept of Operations (Cont'd..)3.11 General Security Measures

3.11.4 Whenever possible, the delegation head will be informed of any threat against any person of his group. If it then becomes necessary to raise the security level for this delegation and if the delegation head refuses, his refusal will be made in writing or before witnesses.

3.11.5 All villages, training and competition sites will be searched in an appropriate way before athletes arrive. The frequency and methods of these searches shall be consistent with the circumstances and with the operational procedure at each village and site. Special attention will be granted to areas within the site, which are part of the security corridor, i.e. athletes' arrival and departure points, warm-up and service areas,

ATHLETE SECURITY3. Concept of Operations (Cont'd..)3.11 General Security Measures

3.11.5 ..the section reserved for onlooking athletes, the area surrounding the competition field, and finally the passageways connecting these various areas.

3.11.6 The persons who do not have the necessary accreditation or any special authorization will not be allowed inside the security corridor limits.

ATHLETE SECURITY4. Operational Dates

- 4.1 For the purpose of the "Corridor" the period of athlete protection will extend from June 19, 1976 to August 7, 1976 inclusive, the period declared "Official Olympic Period" by C.O.J.O. and I.O.C.

ENTRY CONTROL

ENTRY CONTROL1. Definition of Function

1.1 Entry control, in the Olympic context, includes increased measures to:

- Prevent illegal entry of persons into Canada;
 - Detection of undesirable persons entering Canada;
- and,
- Increased Customs inspection services to prevent importation of arms and explosives into Canada.

ENTRY CONTROL2. Policy

- 2.1 Strengthen entry control at ports of entry, land, sea and air to reduce illegal entry of known or suspected terrorists, criminal elements or other persons who are not deemed to be bona fide visitors.
- 2.2 Implement measures for the purpose of providing more efficient and effective methods of security control to detect undesirable persons seeking entry into Canada.
- 2.3 Officers must step-up their vigilance when examining all non-Immigrants at offices abroad and at Ports of Entry in Canada.
- 2.4 "A", "C" and "J" Divisions will have roving Border patrols, consisting of R.C.M.P. and C.F. personnel deployed on a one to one basis.

ENTRY CONTROL

2. Policy (Cont'd..)

2.5 Emphasis is to be placed on sideroads and small back areas between Ports of Entry.

2.6 Improve response capability to Ports of Entry in assistance to Manpower and Immigration, National Revenue - Customs.

2.7 Other Divisions to sensitize members of their detachments to step up border security enforcement and the provision of assistance to Port Officials.

2.8 National Harbours Board Police (NHBP) will assist the Departments of Manpower and Immigration and National Revenue (Customs and Excise) at Harbours which are Ports of Entry in augmenting entry control procedures.

ENTRY CONTROL3. Concept of Operations

- 3.1 The "Computerized Olympic Integrated Lookout System " (C.O.I.L.S.) will be used by Immigration Officers at all major ports of entry at Airports and on the Canada/U.S. Border.
- 3.2 At the Primary Inspection Lines (P.I.L.) of major entry points a microfiche containing such material as lists of prohibited persons, highly undesirable persons, lookouts, intelligence data and secondary referrals will be verified by Customs Officers.
- 3.3 Other Ports of Entry will use "lookout" lists or acquire access to C.O.I.L.S. and Microfiche through contact with nearest major port.
- 3.4 On April 5, 1975 the Minister of Manpower and Immigration, pursuant to authority vested in him by Subsections 27(1), 27(2) and 28(2) of the Immigration Regulations agreed to amend and add to the Official Instruments N and Z-4, to include the Olympic Identity Card.

ENTRY CONTROL3. Concept of Operations (Cont'd..)

3.5 The Olympic Identity Card incorporating security features will be valid from June 17 to August 31, 1976. This card is a prescribed travel document for admission to Canada and holders do not require passports or other travel documents and are exempt from normal non-immigrant visa requirements.

3.6 Effective January 1, 1976, Disembarkation Cards must be completed by all persons over the age of 14 years arriving in Canada on international flights with the exception of those flights originating in the United States.

3.7 Revised referral criteria for Immigration and Customs Officers will be in effect.

3.8 Passport Visa stamps will receive special attention during the inspection process.

ENTRY CONTROL3. Concept of Operations (Cont'd..)

3.9 Closer examination of ship's crews and passenger vessel manifests will be undertaken.

3.10 A supplementary Inspection Group composed of Immigration and Customs Officers will be activated in the Quebec and Ontario regions to place emphasis on inspection at small airstrips, marinas and other points of entry. As required, R.C.M.P. personnel will participate on this inspection team.

3.11 An Inter-Departmental (IMM-CUSTOMS-MOT-NHBP-RCMP) Workshop Report detailing recommendations for possible improvements to Entry Control at Ports of Entry was distributed to all Regional Directors of Immigration and Regional Collectors of Customs and Excise for evaluation and implementation where feasible. The Report covered such areas as control cards, delayed baggage inspection, daily briefings for Port personnel, provision of alarm systems, control on non-scheduled

ENTRY CONTROL3. Concept of Operations (Cont'd..)

3.11 ...Trans-Ocean Plane Stops (TOPS), queing for returning Canadians, police presence in International arrivals area, etc.

3.12 The extension of the following Port hours in the Montreal Region to 24 hour coverage will be effected from June 14 to increase control over trans-border traffic.

Quai Richelieu

Jamieson's Line

Franklin Center

Covey Hill

3.13 In the Quebec Region, effective June 21, the border ports of East Pinnacle and Morses Line will extend the hours of service from 16 to 24 hours. The Bromont Airport which is presently on a call-out basis will provide 24 hour coverage.

ENTRY CONTROL3. Concept of Operations (Cont'd..)

3.14 The following airports in the Quebec Region will receive extended coverage as of June 21 and will be checked by the Special Inspection Group:

Sherbrooke	- 16 hours
Magog (Sea Planes)	- 8 hours
St. Hubert	- 24 hours

3.15 In the Atlantic Region, the border port of Grand Falls, New Brunswick will extend hours of operation to 24 hours effective June 14.

3.16 Additional manpower has been budgeted for, trained and deployed at strategic ports by Immigration and Customs.

3.17 At major Airports an R.C.M.P. presence will be in effect for the Olympic period at International arrival areas.

ENTRY CONTROL3. Concept of Operations (Cont'd..)

3.18 Increased liaison during the past several months has been undertaken by Immigration and Customs with their American counterparts. Contact will be maintained by these Departments with the Communications and Liaison Center at Swanton, Vermont for the Olympic period.

3.19 The Temporary Immigration Security Act - Bill C85, giving the Minister power to refuse entry to any visitor who is likely to engage in any act of violence that would or might endanger the lives or safety of persons in Canada was passed by the House of Commons on February 26, 1976. This Act expires on December 31, 1976.

ENTRY CONTROLS3. Concept of Operations (Cont'd...)

3.20 "A", "C" and "J" Divisions will have special dedicated roving patrols, strategically located where the greatest influx of visitors is expected, operating on a twenty-four hour, seven day a week basis for the Olympic period and assisted by Canadian Forces on a one to one basis.

3.21 In other divisions, detachments along the border, as well as normal patrols in the area have been sensitized to the need for increased vigilance.

3.22 Municipal and other police forces likely to be called upon to respond to a Port of Entry in a criminal matter have been asked to be particularly alert during the Olympic period.

ENTRY CONTROL3. Concept of Operations (Cont'd..)

- 3.23 Helicopter support will be provided by Canadian Forces on an as required basis.
- 3.24 Close liaison is being maintained with Canadian and U.S. Immigration and Customs agencies.
- 3.25 Water patrols will be implemented in "A", "C", and "J" Divisions in those areas requiring same.
- 3.26 Increased liaison with the operators of small airstrips, marinas and resort owners in the vicinity of the Canada/U.S. Border, in the interest of fostering cooperation and detecting illegal entry will be undertaken.

ENTRY CONTROLS3. Concept of Operations (Cont'd..)

3.27 A Ministerial instrument dated 23 April 1976, by the Minister of Manpower and Immigration appointed all National Harbour Board Police Officers, employed at all Ports designated as Ports of Entry, as Immigration Officers.

3.28 Assistance will be provided the Departments concerned by the N.H.B.P. in such areas as the transportation of inspection staff to ships at anchor, the inspection of disembarking persons from ships docked alongside, conducting roll calls on ships leaving Canada, and obtaining cooperation from water taxi operators.

3.29 N.H.B.P. will through the cooperation of the Laurentian Pilotage Authority, obtain crew manifests from foreign ships, on their travelling to Quebec City or West of Quebec City, to permit a verification of the names on the microfiche viewer (Manpower and Immigration).

ENTRY CONTROLS3. Concept of Operations (Cont'd..)

- 3.30 Ships docking at ports east of Quebec City will submit their manifests directly to the nearest Immigration Representative.

HARBOUR SECURITY

OLYMPIC HARBOUR SECURITY1. Policy

- 1.1 To provide police and security services above the normal level at the Port of Montreal and to assist and coordinate security requirements for the St. Lawrence Seaway Authority (Eastern Region) as a result of the 1976 Summer Olympic Games at Montreal, Quebec and Kingston, Ontario.

OLYMPIC HARBOUR SECURITY2. Definition of Function

- 2.1 The provision of protection to vessels, vital points and other property at the Port of Montreal and the St. Lawrence Seaway Authority (Eastern Region).

OLYMPIC HARBOUR SECURITY3. Concept of Operations

- 3.1 Commencing June 1, 1976, a National Harbours Board Police boat will be on patrol 24 hours a day covering the waters that are under their responsibility.
- 3.2 Later, in July, surveillance will be further increased with additional water and air patrols with assistance provided by the Canadian Coast Guard.
- 3.3 Enforcement at the Port of Montreal will be increased through the extension of normal working hours.
- 3.4 In addition to normal communications facilities with the St. Lawrence Seaway Authority and the Canadian Coast Guard, National Harbours Board Police will staff an Operations Centre in Montreal on a 24 hour basis and place a representative in the Joint Forces Coordination Centre.
- 3.5 N.H.B.P. from Montreal will supervise additional security guards hired for protection of specific locks and bridges along the seaway system.

OLYMPIC HARBOUR SECURITY

3. Concept of Operations (Cont'd...)

3.6 Improved screening and access control measures will be in effect at the Port of Montreal, with additional manpower, improved communications facilities (telephone and portable radios), guardhouses and entry barriers.

3.7 For information on additional assistance provided to the Departments of Manpower and Immigration and National Revenue (Customs and Excise) refer to Chapter "Entry Controls".

OLYMPIC HARBOUR SECURITY4. Operational Dates

- 4.1 The 24 hour patrol of National Harbours Board water in the vicinity of Montreal will commence on June 1, 1976. On or about July 15, 1976, an additional boat and a helicopter will patrol the area seven days a week, 16 hours a day. All added security will cease on or about August 5, 1976.

OLYMPIC HARBOUR SECURITY

5. Tasking Authority

- 5.1 Agreements reached at April meetings of the Coordinating Committee, Port Operations, Port of Montreal, on April 1, 29 and 30, 1976. Members from Customs, Immigration and the National Harbours Board participated.

OLYMPIC HARBOUR SECURITY6. Command and Control

- 6.1 The normal command and control structures in effect within respective departments involved with security activities in the harbour area will be followed through the Coordinating Committee established for this purpose. This Committee will not, however, be active in the operations and last met on April 30, 1976.

OLYMPIC HARBOUR SECURITY7. Allocation of Resources

- 7.1 All additional resources required will be provided from within the Departments concerned, primarily Customs, Immigration and the National Harbours Board Police with some assistance from the Canadian Coast Guard. No additional assistance will be available from the other Olympic Security Forces.

OLYMPIC VILLAGES

OLYMPIC SECURITY - VILLAGES

1. Definition of Function

- 1.1 To secure Olympic Village facilities at three locations: Montreal, Kingston and Bromont, and provide a high level of protection to the Olympic athletes and delegations housed therein.

OLYMPIC SECURITY - VILLAGES2. Policy

- 2.1 As demonstrated by the incident at the 1972 Olympics, the Olympic Villages are considered highly potential targets for terrorist action; consequently, villages will receive the maximum degree of security that resources will allow.
- 2.2 Security policies were created initially for the Montreal Olympic Village but so designed that they could be modified to meet local conditions and applied at the Olympic Villages in Kingston and Bromont as well; liaison has been maintained between the respective forces and Village Commanders involved to ensure this degree of uniformity.
- 2.3 All special security which becomes necessary for certain delegations within the Villages will be a joint decision taken by the different Commanding Officers of the Police and Military forces assigned to this task.

OLYMPIC SECURITY - VILLAGES2. Policy (Cont'd..)

- 2.4 Security will have the last word when action is required to refuse access to the Olympic Villages; however, the Director General of the particular village will be informed.

OLYMPIC SECURITY - VILLAGES3. Concept of Operations

3.1 As the Olympic Villages will be one of the few venues where entire delegations are gathered together at one time; these Olympic installations are considered a prime target for any terrorist action. With an estimated total Olympic population of approximately 15,000 participants, coaches, trainers, etc., to afford protection, village security at all three locations (Montreal, Bromont, Kingston) will place heavy demands on resources.

3.2 The broad security concepts, which received the approval of the Olympic Organizing Committee (COJO) will utilize both human and technical resources.

3.3 Virtually, all Olympic security forces will, in varying degrees, have an involvement with the Olympic Village security.

OLYMPIC SECURITY - VILLAGES3. Concept of Operations (Cont'd..)

3.4 Specifically, maximum security will be applied to the Residential and International zones with fencing, limited access gates and 24 hour patrols.

3.5 No access to Olympic Villages will be permitted without an official accreditation or an official pass.

3.6 All persons wishing to enter the Villages will do so by the approved turnstiles, produce for inspection their pass or accreditation and submit to an electronic search.

3.7 All parcels, deliveries, baggage, etc., of the residents or visitors will be searched manually or electronically before introduction into the Villages.

3.8 No firearms, except those in use by the security forces will be allowed into the Olympic Villages.

OLYMPIC SECURITY - VILLAGES3. Concept of Operations (Cont'd..)

- 3.9 Competitors firearms at the Montreal Village will be stored and used for "dry-shooting" practice by the competitors in a specially controlled area of the International zone and will not be permitted in the residential area.
- 3.10 The residence of the female athletes will be under surveillance by female security personnel.
- 3.11 Day and night surveillance will be discreet and unobtrusive.
- 3.12 At night, security will be evident and rigorous with irregular rounds of inspection.
- 3.13 A curfew will be established between 9:30 p.m. and 8:30 a.m. in the residential zone. This curfew will apply to journalists and visitors.
- 3.14 The number of journalists and visitors allowed in the Villages at the same time during the day will be controlled through a pass system.

OLYMPIC SECURITY - VILLAGES5. Tasking Authority5.1 Olympic Village - Montreal

5.1.1 Prime responsibility for security will rest with the police force having jurisdiction, M.U.C.P.D. However, the following assistance will be provided by other security forces.

5.1.2 Quebec Police Force will control admission to the International Center and also all access along L'Assumption Blvd., as well as security of the storage area for competitors firearms in the International Zone (PARK) which includes all matters related to the control of firearms for on-site practice "dry-shooting".

5.1.3 Canadian Forces will provide assistance in the area of perimeter security, access control, security in female quarters, and in some cases, the use of electronic metal detectors (manual and archway) in the search of vehicles or persons entering the Village compounds.

5. Tasking Authority (Cont'd..)

5.1 Olympic Village - Montreal

5.1.4 Members of the R.C.M.P. will be deployed within the residential zone primarily for the enforcement of federal laws and to render assistance as operational exigencies dictate with specific duties as detailed in correspondence dated 9 January 1976, file HQY - 465-11, Vol. 5.

5.1.5 Allocation of other Security forces to the tasks outlined above, provided in detail in guard post matrix dated 10 December 1975, file Py 400-5.

5.2 Olympic Village - Bromont

5.2.1 The Quebec Police Force with assistance from the Canadian Forces in perimeter and access control will assume the responsibility for security at this Village because of the totally inadequate human resources with the Bromont Police Force.

OLYMPIC SECURITY - VILLAGES5. Tasking Authority (Cont'd..)5.3 Olympic Village - Kingston

5.3.1 The Ontario Provincial Police, (O.P.P.) because of the inadequacy of resources within the Kingston City Police Department, will assume full responsibility for the security and control of access to the Kingston Village.

5.3.2 Support will be provided by the Canadian Forces in the areas of perimeter patrols and a small standby tactical unit within the Village itself.

OLYMPIC SECURITY - VILLAGES6. Command and Control6.1 Olympic Village - Montreal

6.1.1 An inter-security force command and control structure as illustrated by the organization chart (Annex 1) has been created. Although the officer in charge of the Security force is a member of the Montreal Urban Community Police, and directs all security at the Village in line with agreed task sharing and operational plans, his direct control is limited to those members of his own department. All other matters pertaining to members of another Security Force, will be handled through the respective officer assigned to the Village who in turn answers to his superiors, within the normal chain of command.

OLYMPIC SECURITY - VILLAGES6. Command and Control (Cont'd..)6.2 Olympic Village - Bromont

6.2.1 A member of the Quebec Police Force is the Officer in Charge of Security at this Village who answers through the normal chain of command in his force. He is assisted by a Military Officer who controls the activities of Canadian Forces personnel assigned to the Villages in line with agreed task sharing. Canadian Forces follow their normal chain of command.

6.3 Olympic Village - Kingston

6.3.1 The Ontario Provincial Police are responsible for Kingston Village Security. O.P.P. #9 District has been placed in command of all O.P.P. uniform duties at Kingston, including the Village. Twenty-four hour command coverage at the Village is provided by Staff Inspectors working eight hour shifts. The Ontario Provincial Police will follow their normal chain of command, in this case reporting to a

PUBLIC RELATIONS

PUBLIC RELATIONS1. Definition

- 1.1 Public relations in the Olympic Security context is a public information program designed to centralize all information releases on joint security undertakings related to the 1976 Summer Olympic Games.

PUBLIC RELATIONS2. Policy

- 2.1 All information releases on security aspects of the Games will be made through the appointed Public Relations Sub-Committee, which is under the direction of CPSPJO.

NOTE: Provisions have been made to provide Government officials with adequate information should they wish to make releases.

PUBLIC RELATIONS3. Concept of Operations

- 3.1 Prior to July 17, 1976 the Public Relations Sub-Committee in cooperation with the various sub-committees on the public safety of the Games and the Customs and Immigration Department will prepare information releases to inform the public on reasons for security measures currently in place and to correct any misunderstanding which may arise concerning security matters.
- 3.2 From July 17 to August 2, 1976, this sub-committee will perform General Press liaison and public relations duties which will include the release of information on specific incidents which will occur.
- 3.3 After the Olympic Games until the end of all security operations, the sub-committee will provide whatever public relations services that may be required.

PUBLIC RELATIONS3. Concept of Operations (Cont'd..)

3.4 The information releases will be made through the following:

- (1) Daily Press Conferences
- (2) Special Press Releases
- (3) Answering telephone inquiries
- (4) Special interviews or press conferences
- (5) Audio visual presentations
- (6) Selected spokesmen
- (7) Briefings at scenes of incidents

NOTE: The Public Relations Sub-Committee has also the task of hosting visiting Officials from other countries.

SECURITY BRIEFINGS

SECURITY BRIEFINGS

1. DEFINITION:

1.1 A briefing program designed to:

- (a) Totally familiarize participating delegations on the security measures and their limitations which will be in effect for their delegations.
- (b) To establish communication links between RCMP Security Service and Olympic Attaches or their delegates.

SECURITY BRIEFINGS

2. Policy

2.1 Policy Guidelines

2.1.1 Briefings should be prepared in slide form, be standardized and contain only material approved by the Principal Coordinator, after discussion at C.P. S.P.J.O.

2.1.2. There should be two types of briefings:

- (a) A general type briefing which could be given individually to any country participating in the Games.
- (b) Specific briefings for individual countries dealing with special measures being taken to satisfy the requirements of their delegation, and which would also include (a).

SECURITY BRIEFINGS

- 2.1.3 There should be one main centre for all briefings in Montreal. In the event a briefing is requested to be held elsewhere, approval from the Principal Co-ordinator is mandatory. A COJO Hall will be made available to conduct briefings.
- 2.1.4 Insp. A. Breau was assigned to deal with the preparation of the briefing material, in consultation with C.F. members and the various police forces involved.
- 2.1.5 An accurate and complete record of each briefing should be maintained, in order that Headquarters can keep the Department of External Affairs fully informed. This record will include:

2. Policy: (Cont'd..)

2.1 Policy Guidelines

2.1.5 (Cont'd..)

- a) Identification of participants.
- b) Time and place of briefing.
- c) Type of briefing.
- d) Questions raised - replies given.
- e) Questions left in abeyance.

Replies transmitted later, when
and to whom?

- f) Attitude of delegation members.
- g) Notes taken on any valid
suggestion advanced by the
delegation.

2.1.6 The Officer i/c briefings will answer
questions of a general nature and
"refer to other members in attendance,
all questions relating to their
particular field of operation....".

SECURITY BRIEFINGS2. Policy: (Cont'd..)2.1 Policy Guidelines

2.1.7 The Security Service objective of being present at all briefings is to establish communication links with the Olympic Attaches or their delegates which will continue throughout the Games. These links will enable the Security Service to receive information, concerning knowledge of any threat to any particular national team, for eventual analysis at Headquarters and transmission to the operational sector. As a result of participation at the time of the briefing, the Security Service representative will be prepared to respond to any general questions on topics which fall within Security Service areas of responsibility, such as level of threat towards a specific delegation from groups within Canada. The Security Service will participate to the following extent:

SECURITY BRIEFINGS

2. Policy: (Cont'd..)

2.1 Policy Guidelines

2.1.7 (Cont'd)

- a) Have a fully briefed investigator, for each country or closely related countries, available to take part in each briefing.
- b) The investigator will be familiar with the foreign country itself and the groups from within Canada which might pose a threat to the Olympic team.
- c) He will answer questions of a general nature raised by the Attache. In cases of high risk countries given a more detailed physical briefing, the Security Service member will be prepared to respond more specifically.

SECURITY BRIEFINGS2. Policy: (Cont'd..)2.1 Policy Guidelines

2.1.7 (Cont'd)

- d) In all cases, he will establish himself as the continuing contact point for that particular Attache should the Attache wish to pass any threat information to Canadian authorities.
- e) The investigator will develop an association with the Attache, and
- f) During the period that the Olympic team is in Canada, i.e. June 19 to 8 August 1976, will be available on a continuous basis to act as the transmission link for incoming intelligence information.

SECURITY BRIEFINGS3. Concept of Operation

- 3.1 When a request has been made by a delegation for a security briefing, "C" Division will forward immediate advice by telex to RCMP "HQ" Division.
- 3.2 RCMP "HQ" Division will advise the Department of External Affairs in order to give that Department the opportunity to convey any intelligence, concern or advice to the briefer, prior to the briefing.
- 3.3 The security briefing will be given by Insp. A. Breau, "C" Division, assisted by a recording secretary and a RCMP Security Service member.
- 3.4 An accurate and complete record of the briefing will be maintained by "C" Division and a copy forwarded to RCMP "HQ" Division.

SECURITY BRIEFINGS

3. Concept of Operation: (Cont'd..)

CHAPTER 17

SITE SECURITY

SECRET

SECURITY - OLYMPIC SITES

1. Definition:

- 1.1 To physically secure designated Olympic sites thereby providing protection to Olympic athletes, V.I.P.'s, other members of the public and their property against deliberate or accidental harm, abuse or threat. In this instance designated Olympic sites includes training and competition sites.

SECURITY - OLYMPIC SITES2. Policy:

2.1 Security at Olympic sites, training or competition, will generally be the responsibility of the police force having jurisdiction over the area. Exception to this rule are the Portsmouth Harbour facilities and the race course area of Lake Ontario. Responsibility for the security for the former has been accepted by the O.P.P. and the latter by the R.C.M.P.

2.2 Matters of routine criminal law enforcement are governed by the regular day to day operational policies of the police force concerned.

2.3 Special protective security policies and procedures have been determined through surveys conducted of all sites, identifying accommodation, equipment and manpower requirements.

SECURITY - OLYMPIC SITES3. Concept of Operations

3.1 Security forces at Olympic sites will provide for physical protection of the installation, access control to restricted areas, and security for participants, VIPs and spectators in attendance. Security measures to meet these objectives will include perimeter patrols, stationary guard posts, pre-selected surveillance points and site inspection before each competition.

3.2 Access to all Olympic venues by employees, competitors, concessionaires, etc., will be by special entrance; controlled through the accreditation and pass systems; and enforced by private security guards, other COJO employees or security forces depending on the specific site requirement.

SECURITY - OLYMPIC SITES3. Concept of Operations: (Cont'd..)

3.3 Commanding Officers have been selected by each police force having responsibility, to coordinate, plan and implement security at each site of training and competition, in line with joint tasking agreements, recommendations and policies.

3.4 The Commanding Officer will sit as a member of the COJO "Unité d'operation" (UNOP) at each site to advise on security matters, resolve problems of mutual interest and remain abreast of organizational arrangements.

3.5 Security Forces will control access to such restricted areas as V.I.P. lounges and seating.

SECURITY- OLYMPIC SITES3. Concept of Operations: (Cont'd..)

3.6 Private security guards will be under the administrative control of COJO, via the Site Management; but under the operational control of the site commanding officer as appointed by the police force having criminal jurisdiction.

3.7 Canadian Forces will be in an assistance role at all Olympic sites.

3.8 There are 28 competition sites and another 27 training sites in the Province of Ontario and Quebec where security will be provided. Variations in the number of sites will occur in accordance with the exigencies of the Organizing Committee (COJO).

3.8.1 Photographs of Competition sites can be viewed in Annex 1, pages 1 to 10.

V.I.P. SECURITY

V.I.P. SECURITY

1. Definition of Function

- 1.1 Personal security includes protection from all hazards whether they occur accidentally, through negligence, or by personal design.

V.I.P. SECURITY

2. Policy

2.1 The Government of Canada will not be inviting Heads of State or other dignitaries to come to the Games as official guests, but it will provide appropriate attentions, including security, to those who come of their own volition as private visitors.

2.2 Normal responsibilities towards the protection of members of the Royal Family, Governor General and Prime Minister will be carried on.

2.3 In all cases Heads of State, Heads of Government or their immediate families will be afforded security; the degree of which will depend on the evaluation of the threat.

2.4 In addition, security will be afforded those persons whose importance and the threat against require the Federal Government to assume responsibility.

V.I.P. SECURITY

2. Policy (Cont'd..)

2.5 Because of task sharing, some flexibility will be desirable particularly when required to provide security for Games officials such as members of COJO or the IOC.

V.I.P. SECURITY

3. Concept of Operations

3.1 P.P.B. of "P" Directorate will translate the threat estimate received from Security Service into four specific degrees of security; minimum, moderate, medium and maximum. The resources required for these four categories will be deployed as per existing RCMP instructions.

3.2 Canadian Forces will assist in the areas of baggage, aerial, aircraft and Hotel Security as well as technical assistance (X-Ray).

3.3 Security Forces assigned to each V.I.P. will work as a team, reporting directly to the senior member of their department on the detail.

3.4 In the case of the R.C.M.P. an officer will be assigned to each maximum and medium visitor.

V.I.P. SECURITY

4. Command and Control

4.1 All sub-function commanders i.e. hotel security, escort, advance party will report direct to the divisional V.I.P. desk or Operations Center, from which all information will flow into the overall Olympic Security Command Structure.

4.2 Canadian Forces will follow their normal chain of command through senior officers posted at respective operational centers.

4.3 Other police forces will assign a member of their own department to be responsible for the control of their own members.

CHAPTER 19

VITAL POINTS SECURITY

VITAL POINTS

1. Definition of Function

- 1.1 To secure facilities providing essential services to one or more Olympic Site which if disrupted, would cause temporary or permanent interruption of an Olympic event or services essential to the Security Forces.

VITAL POINTS2. Policy

2.1 Olympic vital points have all been categorized into systems. The security needs for each system have been determined through on-site surveys and subsequent analysis of the survey reports. Survey reports and policy recommendations are contained within the respective vital point system files.

2.2 A vital point was defined as "a facility which furnishes on essential services to maintain the normal functioning of one or more Olympic sites and/or one or more other essential services and would if damaged in any manner whatsoever, cause a temporary or permanent interruption to the sites or points affected."

VITAL POINTS

3. Concept of Operations

3.1 A committee composed of representatives from the various security forces identified essential services within the following systems:

- a) Olympic Organizing Committee
Administrative Bldg. (COJO)
- b) Hydro - Quebec
- c) Ontario Hydro
- d) Montreal Waterworks
- e) Kingston Waterworks
- f) Bell Canada
- g) CN/CP Telecommunications
- h) Radio Canada Building
- i) Organization Radio Télévision Olympique
(ORTO)
- j) Société Canadienne des Télécommunications
Trans-Marines (SCTT)
- k) Télésat
- l) Commission de Transport de la
Communauté Urbaine de Montréal
(CTCUM)
- m) Voyageur Colonial
- n) C.N.R.
- o) C.P.R.

VITAL POINTS

3. Concept of Operations

3.2 Several hundred surveys were conducted in Ontario, Quebec and elsewhere; identifying improvements to hardware, fencing, lighting as well as a determination of manpower requirements for improved security.

3.3 Classifications were then made according to the type of security required:
i.e. staffing by:

- a) Police
- b) Canadian Forces
- c) Private Security Guards
- d) Company employees

3.4 Vital points were categorized and in line with resource priorities the following systems were selected and found to be an acceptable task for Canadian Forces in the Province of Quebec:

- a) Hydro-Quebec
- b) Montreal Waterworks
- c) CN/CP Telecommunications

VITAL POINTS3. Concept of Operations (Cont'd..)

- 3.5 On review of all Olympic tasks, however, it became necessary for a redeployment of Canadian Forces to Olympic Training Sites in Montreal from all Quebec Vital Points with the exception of Hydro-Quebec, V.P.

Manicouagan - Levis (Saguenay Crossing)
transmission lines #7007, 7008, 7023

- 3.6 In Ontario final selection and setting of priorities leaves Canadian Forces protecting:

- a) Catarague, Gardiner and Frontenac Transformers
- b) Hinchbrook Switching Station
- c) Kingston Water Tower, Purification Plant and Reservoir

- 3.7 Helicopter patrols and support will be provided by Canadian Forces as required.

- 3.8 Owners of all other Vital Points where protection cannot be afforded from Olympic security resources have been asked to step-up security and where possible implement security recommendations arrived at by on-site surveys.

VITAL POINTS

4. Operational Dates

- 4.1 Quebec - 14 June 1976 to 6 August 1976
- Ontario - 19 June 1976 to 2 August 1976

5. Tasking Authority

- 5.1 C.F. personnel - Cabinet decision
- Letter from the Chief
of Defence staff dated
12-9-75 and 16-6-76.

6. Command and Control

- 6.1 Normal Canadian Forces Command and Control structures will be in effect, however, in each instance where vital point security is provided by Canadian Forces personnel, a member of the local police force having jurisdiction over the area, has been designated a contact officer for the C.F. personnel, should an incident occur or the need otherwise arise.

VITAL POINTS7. Allocation of Resources

7.1	Quebec	-	DND	107
	Ontario	-	DND	98
