TO A Insp. Taylor

File No. (addressee) - Dossier n° (destinataire)

Subject - Sujet 1976 Olympics - Manpower Requirments

With reference to the "C" Division memorandum of May 2, 1975. I have relatively few comments since most of "C" Division's requests involve Operations. However, and based on verbal discussions between Supt. Cobb and myself, I intend to commit essentially our whole Operations Section to Olympics associated targets as necessary after January 1, 1976. Before that time I intend to send key individuals into Montreal on orientation sessions. While presumably Montreal will be the main center for Olympics associated operations, the personnel will be available on a priority basis for any Olympic associated target anywhere in Canada. Basically, what I am saying is that the Olympics will get first priority but this does not necessarily mean that Montreal itself will get first priority.

In general, I foresee that the highest priority for Operations over the period of September 1975 to August 1976, will be the 1976 Olympics and that we must be prepared to commit all available manpower on a priority basis to that target.
