June 9, 1975

During the past months our Olympics Secretariat has been developing a considerable number of Olympic programs which are dependent on the single factor of manpower. The Force in general will provide 1172 regular members for Olympics security and of this number "HQ" Division has been asked for 241 members to assist "C" Division. In turn, the C.O. "HQ" requested 94 members from Security Service. On 28-4-75 the Director General replied to this request as follows:

"... I am not prepared at this stage to commit any Security Service personnel for general police duties during the Olympics. We are currently examining national Security Service requirements and it is already evident that most, if not all, of our manpower at "HQ" and Divisions will be fully occupied on Security Service Olympic programs. The Security Service is very heavily committed to many intelligence support operations for the Olympics and it would be unwise to look to us for manpower assistance."

2. A major area of concern is the "C" Division Security Service to cover such programs as the Operations Centre, Investigation Teams, V.I.P. Escorts, Assessment Program, and Caretaker Staffs for all Operations units. The need has been identified for "C" Division Security Service as follows:

Total requirements (excepting "I" and Ops.)	151
"C" Division Security Service establishment	110
Additional members to augment establishment	41

Thus, there is a requirement for 41 Security Service personnel to be sent from "HQ" to "C" Division for the period of June 15 to August 1, 1976. Preference is to be given to members with bilinguAL capability.

3. In addition, "C" Division has requested a twelve man stand-by team for specific "E" Operations support duties. This team, made up of "HQ" personnel, will require a technical training course of one or two days, and would remain on regular duties at "HQ" subject to call if required.
