Proposed DND Weapons Display

① DDG ops
OIC "D" ops

I think Terrorist Section "D" ops? Do you agree? *[Signature]*

SECURITY CLASSIFICATION - DE SÉCURITÉ
OUR FILE - N° RÉFÉRENCE IP 210-36
YOUR FILE - V° RÉFÉRENCE
DATE 6 December 1974

Attached please find C/M [redacted] report covering his visit to Camp Borden. A suitable display could be arranged to show the various "families" of weapons. Although arrangements can proceed, in view of DND budgetary restrictions, it is unlikely that it could be prepared before 1 April 1975.

The general format should be an integrated Security Service/ DND presentation of approximately three hours.

- Hour one -- Security Service or International Terrorist Briefing
- Hour two -- DND presentation on weapons and their capabilities
- Hour three - questions and handling of weapons by audience.

The presentation should be made at Camp Borden (for Toronto), Ottawa, Montreal, Vancouver, Kingston and Regina. The audiences would include RCMP (all units), DND, Customs, local, provincial harbour and railway police, and possibly Post Office personnel.

The presentation should be video-taped for general training purposes.

In view of the nature of this program, I would suggest that it be handled either by Security Service Training & Development or by the International Terrorist Section of "D" Ops. The Terrorist Section will certainly be involved in the presentations (hour one).

I have had preliminary discussions with Herb BRADLEY regarding the likely involvement of Training and Development personnel.

"D" Operations

PROPOSED OUTLINE PLAN FOR WEAPON DISPLAY

Objectives of the display

One of the main objectives of such a display would be to familiarize the personnel of various police forces and government agencies such as the R.C.M.P. (all units), DND, Customs, provincial and municipal police forces, harbour and railway police and possibly Post Office authorities with the types of weapons being employed by International Terrorist groups. A secondary objective would be to demonstrate the ease and the various methods by which these weapons can be transported and concealed.

Presentation Format

In discussion between DND and RCMP Security Service personnel it has been agreed that such a display should be an integrated RCMP Security Service/DND presentation of approximately three hours in length. The actual display would consist of three phases:

- (A) The first hour would consist of a general threat presentation provided by the RCMP Security Service International Terrorist Section of "D" Ops and it would be concerned with the tactics employed by terrorist groups in recent years.
- (B) The second hour would consist of a presentation by Canadian Forces personnel on the actual weapons and their specific capabilities.
- (C) The third session would be a more informal question and answer period at which time those in attendance would be given the opportunity to examine and handle the weapons made available.

Input from the Canadian Bomb Data Centre should be included in either (A) or (B).
